A WORD ABOUT WARRANTIES

Heavy-duty equipment manufacturers and dealers like to sell their brand of filter. But, the law does not permit them to require you to use their brand in order to keep the warranty in effect. Baldwin filters meet or exceed manufacturers' requirements and specifications. If engine damage is caused by our filter, our warranty applies regardless of whether your equipment is still under the manufacturer's warranty.

If a filter is suspected of causing a failure, don't throw away the evidence. Instead, in order to process a warranty claim, follow the Product Investigation Procedure . . .

1. Complete a Field Report Form (Form 387). Describe the events on a separate sheet.
2. Obtain a sample of oil, fuel or coolant in the system at the time of the failure.
3. Save damaged parts for evidence of the claimed damage.
4. For an air filter, cover the open ends with tape to prevent dust from entering the element during shipping.
5. Send copies of any repair bills.
6. Send the entire suspect filter, including the gaskets. Do not cut open the filter or tamper with it in any way. Package the filter carefully to prevent damage to packaging or paperwork.

UN MOT SUR LES GARANTIES

Les concessionnaires et les fabricants de gros équipement aiment vendre les filtres de leur marque. Mais la loi ne les autorise pas à vous obliger d'utiliser leur marque pour conserver la garantie active. Les filtres Baldwin répondent ou surpassent les exigences et spécifications des fabricants. Si votre moteur est endomagé par nos filtres, notre garantie s'applique que votre équipement soit encore ou non sous la garantie du fabricant.

Si un filtre est soupçonné causer une défaillance, n'en jetez pas la preuve. Afin de pouvoir faire une réclamation au titre de la garantie, suivez la Procédure d'investigation de produit . . .

1. Remplissez un formulaire de rapport terrain (Form. 387). Décrivez les événements sur une feuille séparée.
2. Obtenez un échantillon d'huile, de carburant ou de liquide de refroidissement du système au moment de la défaillance.
3. Conservez les pièces endommagées comme preuve des dégâts pour la réclamation.
4. Pour un filtre à air, couvrez de ruban adhésif les extrémités ouvertes pour éviter que la poussière n'entre dans la cartouche pendant l'expédition.
5. Envoyez des copies des factures de réparation éventuelles.
6. Envoyez le filtre suspect entier, y compris les joints. N'ouvrez pas le filtre et n'essayez pas de le modifier de quelque façon que ce soit. Emballez-le soigneusement pour éviter d'endommager l'emballage ou les papiers.

NOTA SULLE GARANZIE

I produttori e i rivenditori di apparecchiature "heavy-duty" privilegiano la vendita della propria marca di filtri. Tuttavia, la legge vieta a produttori e rivenditori di richiedere al cliente l'utilizzo dei loro filtri per conservare la validità della garanzia. I filtri Baldwin soddisfano o superano i requisiti e le specifiche dei produttori. Se il danno al motore è causato da un filtro Baldwin, la garanzia viene applicata indipendentemente dalla validità della garanzia fornita dal produttore dell'apparecchiatura.

Se la causa del guasto può essere imputabile ad un filtro Baldwin, conservare le eventuali prove. Al contrario, per inoltrare un reclamo in garanzia, seguire la "Product Investigation Procedure" (procedura per l'analisi del prodotto).

1. Compilare un Field Report Form (modulo di relazione sul campo) (Modulo 387) in ogni sua parte. Allegare una descrizione dei fatti su un foglio separato.
2. Procurarsi un campione di olio, carburante o liquido refrigerante del sistema presenti al momento del guasto.
3. Conservare i pezzi danneggiati a prova del danno oggetto del reclamo.
4. In caso di filtri aria, coprire le estremità aperte con del nastro per impedire che la polvere penetri nell'elemento durante la spedizione.
5. Inviare copia delle fatture relative alle spese per la riparazione.
6. Inviare tutti i componenti del filtro, comprese le guarnizioni. Non aprire il filtro né manometterlo in alcun modo. Imballare accuratamente il filtro per evitare danni all'imballaggio o alla relativa documentazione.

UMA NOTA SOBRE GARANTIA

Os fabricantes e comerciantes de equipamentos para serviços pesados gostam de vender filtros de suas marcas. Porém, a lei não permite que eles exijam que você use as suas marcas a fim de manter a garantia válida. Os filtros Baldwin atendem ou excedem as especificações e requisitos dos fabricantes. Se um dano ao motor for causado por nosso filtro, a nossa garantia é válida, a despeito do seu equipamento ainda estar dentro da garantia do fabricante.

Se um filtro for suspeito de causar um defeito, não jogue fora as evidências. Ao invés, a fim de processar a reclamação de garantia, siga o Procedimento de Investigação de Produto...

1. Preencha o Formulário de Relatório de Campo (Formulário 387). Descreva os fatos numa folha separada.
2. Obtenha uma amostra de óleo, combustível ou refrigerante no sistema na ocasião do defeito.
3. Guarde as peças danificadas como prova do defeito alegado.
4. Para um filtro de ar, cubra as extremidades abertas com fita adesiva para impedir a entrada de pó no elemento durante o transporte.
5. Envie cópias de quaisquer faturas de reparos.
6. Envie todo o filtro suspeito, incluindo as juntas. Não abra o filtro nem o modifique. Acondicione o filtro cuidadosamente para evitar avarias na embalagem ou nos documentos.

Характеристики фильтров "Болдуин" соответствуют параметрам, установленным на основании требований и технических условий изготовителей, или превышают данные параметры. Если использование одного из наших фильтров послужило причиной повреждения двигателя, наша гарантия действует независимо от того, находится ли ваше оборудование на гарантии производителя.

Если имеются основания считать, что фильтр послужил причиной отказа, не следует выбрасывать доказательства. Вместо этого, для предъявления гарантийной рекламации, необходимо выполнить инструкцию по расследованию причин отказа изделия . . .

1. Заполните форму протокола по отказам на месте эксплуатации (форма 387). Дайте описание событий на отдельном листе.
2. Возьмите пробу масла, топлива или охлаждающей жидкости, находящейся в системе во время отказа.
3. Сохраните поврежденные детали в качеств едоказательств наличия повреждений согласно рекламации.
4. В случае с воздушным фильтром заклейте открытые торцы клейкой лентой для того, чтобы предотвратить пыли внутрь детали во время транспортировки.
5. Пришлите копии счетов за все ремонтные работы.
6. Пришлите блок фильтра, в котором предполагается наличие неисправностей, в сборе с прокладками. Не открывайте фильтр и не вносите в его конструкцию никаких изменений. Аккуратно упакуйте фильтр для того, чтобы предотвратить повреждение упаковки или документации.

UNA PALABRA ACERCA DE LAS GARANTÍAS

Los fabricantes y concesionarios de equipos para servicio pesado prefieren vender su marca de filtro. Pero, por ley no les está permitido a exigir el uso de su marca para mantener vigente la garantía. Los filtros Baldwin cumplen o exceden los requerimientos y las especificaciones de los fabricantes. Si el motor se llegara a dañar por culpa de nuestro filtro, nuestra garantía es la que es válida indiferente a si el equipo todavía está cubierto por la garantía del fabricante.

Si se sospecha que un filtro es el causante de la avería, no tire a la basura la evidencia. En vez, para poder tramitar el reclamo de garantía, siga el procedimiento de investigación del producto...

1. Llene un formulario de informe de campo (Form 387). Describa los eventos en una hoja aparte.
2. Saque una muestra del aceite, combustible o refrigerante del sistema al momento de ocurrir la avería.
3. Guarde las piezas dañadas como evidencia del daño reclamado.
4. Para un filtro de aire, tape los extremos abiertos con cinta adhesiva con el fin de evitar la entrada de polvo al elemento durante el transporte.
5. Envíe copias de cualquier factura de reparación.
6. Envíe el filtro sospechoso completo, incluidas las juntas. No abra el filtro ni lo estorbe de manera alguna. Empaquete el filtro cuidadosamente para impedir que se dañe el empaquetado o los documentos.

PRODUCT INVESTIGATION

Procedure for Service Engineering Product Investigation

This procedure outlines the steps necessary for Baldwin Filters Service Engineering to complete an investigation of products from the field. The steps of this procedure are necessary to provide the most accurate and timely investigation possible.

If a filter is suspected of causing a failure, don't throw away the evidence. In order to process a warranty claim, follow the Product Investigation Procedure . . .

1. Complete a Field Report Form (Form 387) (see next page). Describe the events on a separate sheet.
2. Obtain a sample of oil, fuel or coolant in the system at the time of the failure.
3. Save damaged parts for evidence of the claimed damage.
4. For an air filter, cover the open end(s) with tape to prevent dust from entering the element during shipping.
5. Send copies of any repair bills.
6. Send the entire suspect filter, including the gaskets.

If the investigation is being requested for warranty consideration, repair bills (not estimates) should also accompany the request. Damaged equipment components such as bearings, liners, etc. should be retained by the customer for possible examination by Service Engineering.

Filter products are **NOT** to be cut open or otherwise tampered with. This may prevent objective analysis and testing, and **may void the warranty**.

Notice of damages and claims should be made immediately when the damage occurs. Every claim will receive careful and objective consideration. If a Baldwin product is proven to have caused damage, Baldwin will pay the cost required to repair the equipment to its condition at the time the failure occurred. Liability payment will not include consequential damages such as downtime, motel bills, etc.

If you have any questions regarding this procedure, or any product investigation, please contact our Service Engineering Team at
