Sogefi Fluid Filtration R&D center, Vire, France

Qualidade garantida por um verdadeiro líder.

- A Sogefi esta presente no equipamento original como sendo o maior fornecedor de sistemas de filtração do mundo.
- Compromisso com a inovação e pesquisa de excelência.
- Todas as plantas de produção da Sogefi são certificadas atendendo os padrões mais recentes das normas ambientais e de qualidade.
- Ampla gama de filtros de óleo, ar, combustível e de cabine.
- O Departamento de Aftermarket atende todos os canais da reposição automotiva mundial.
- Um líder mundial em sistemas de filtração.

UMA PRESENÇA GLOBAL

Fornecedor para os principais fabricantes de automóveis

SOGEFI GROUP

42 fábricas

17 escritórios de vendas

21 países

www.sogefigroup.com

Uma presença global

O Grupo Sogefi é líder mundial no desenvolvimento e fabricação de sistemas de filtração do motor, sistemas de aspiração, sistemas de refrigeração e de componentes de suspensão.

O Grupo Sogefi é uma realidade mundial, garantia de experiência e de inovação no mundo dos motores com 42 locais de fabrico e 17 escritórios de vendas em 21 países.

Una presencia global

El Grupo Sogefi es uno de los líderes mundiales de componentes para vehículos a motor y se ha especializado en sistemas de motor (filtración, flujos y refrigeración del aire) y en componentes para suspensiones.

El Grupo Sogefi es una realidad global y es garantía de experiencia e innovación en el sector de los motores, 42 plantas de producción y 17 oficinas de venta en 21 países repartidos por todo el mundo.

A global presence

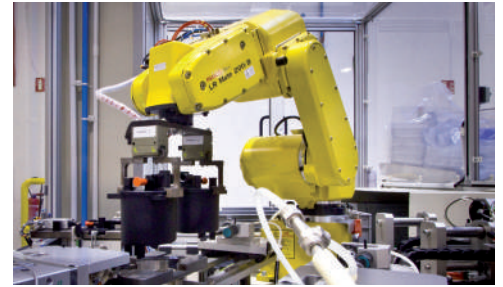

The Sogefi Group is one of the world's leading producers of motor vehicle components, and is a specialist in engine systems (air intake, filtration and cooling systems) and suspension components. As a global concern, the Sogefi Group guarantees expertise and innovation to the world's motor industry through its 42 production plants and 17 commercial offices in 21 different countries.

E Una presencia global
ENG A global presence

O Grupo Sogefi: fornecedor OE (Equipamento Original) dos principais fabricantes de automóveis

O Grupo Sogefi, com mais de 30 anos de experiência no setor, é fornecedor de equipamentos originais dos principais fabricantes de veículos, desde motocicletas a automóveis, de caminhões e ônibus a máquinas agrícolas e equipamentos. Os sistemas de filtração de motores e os componentes para suspensões produzidos pelo Grupo Sogefi são na verdade projetados e desenvolvidos em parceria com os fabricantes e são montados nos automóveis mais vendidos no Brasil e na Europa. As competências de um verdadeiro líder de equipamentos originais garantem a qualidade dos produtos de filtração mesmo no Aftermarket: a Sogefi é na verdade líder de mercado não só no Brasil, como na França, Itália, Reino Unido, Benelux, Argentina e colabora com os principais distribuidores e revendedores, para fornecer a todos os veículos a máxima segurança e o melhor desempenho. A linha de filtros FRAM® para automóveis e veículos comerciais leves inclui filtros de ar, óleo, óleo diesel, gasolina, álcool, bicombustível, e filtros de cabine, para cobrir toda a gama de veículos da frota brasileira.

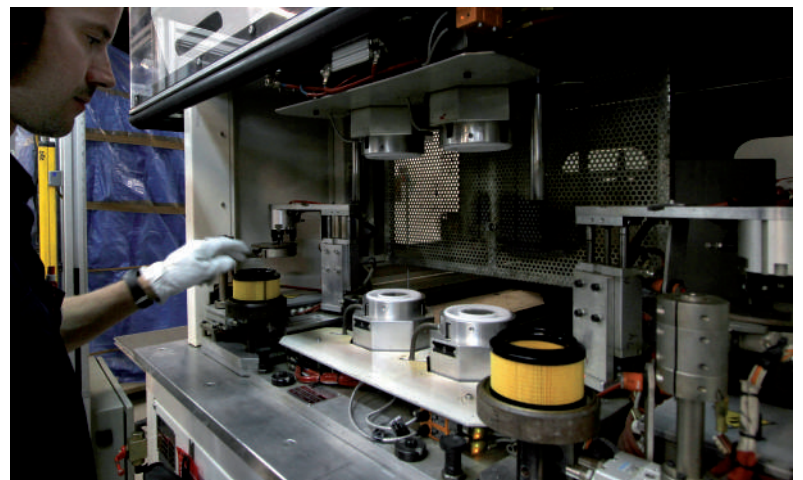

El Grupo Sogefi: proveedor de OE (Original Equipment - Equipamientos Originales) para las principales casas automovilísticas

El Grupo Sogefi, con más de 30 años de experiencia en el sector, es proveedor de primer equipo de las principales casas mundiales fabricantes de vehículos, desde las motocicletas hasta los trenes de última generación pasando por los automóviles y los camiones. Los sistemas de motor y los componentes para las suspensiones fabricados por el Grupo Sogefi efectivamente se diseñan y desarrollan en colaboración con los fabricantes y se montan en los automóviles más vendidos en Europa. El saber hacer de un auténtico líder del primer equipamiento garantiza la calidad de los productos filtrantes también para el Aftermarket: Sogefi efectivamente es líder de mercado en Francia, Italia, Reino Unido, Benelux, Brasil, Argentina y colabora con los principales distribuidores y revendedores, para proporcionar a todos los vehículos la máxima seguridad y las mejores prestaciones. La nueva gama FRAM® para automóviles y vehículos comerciales ligeros incluye filtros de aire, aceite, gasoil, nafta, alcohol, flex fuel y también filtros de habitáculo, para abarcar todo el parque circulante brasileño.

The Sogefi Group: an OE (Original Equipment) supplier to the world's major automotive manufacturers

Boasting over 30 years' experience in the sector, the Sogefi Group is an original equipment supplier to the world's major constructors of all categories of vehicle from motorcycles to passenger cars, and from trucks to next-generation trains. The engine systems and suspension components produced by the Sogefi Group are engineered and developed in collaboration with the constructors themselves, and are fitted as original parts in Europe's best-selling automobiles. With its expertise as a true leader in the original equipment market, Sogefi guarantees the same levels of quality for its aftermarket filtration products. Sogefi is the market leader in France, Italy, the UK, Benelux, Brazil and Argentina, and works in collaboration with the major distributors and retailers to ensure that its products offer unrivalled safety and maximum performance for every possible model of vehicle. The new FRAM® range for passenger cars and light commercial vehicles includes air, oil, diesel, petrol, alcohol, flex fuel and cabin filters for every model of vehicle on the roads in Brazil today.

FILTROS DO AR

Filtros do Ar

O filtro de ar é o componente fundamental do sistema de aspiração. Foi concebido para eliminar as poeiras e impurezas contidas no ar ambiente que é absorvido pelo motor. Dependendo da sua capacidade, os motores em carga total podem absorver entre 200 e 500 m³ de ar por hora. Este ar contém uma quantidade variável de impurezas, dependendo do

país, as condições atmosféricas, a superfície da estrada, etc. Se estas poeiras não forem filtradas, causarão o desgaste prematuro do motor. Para assegurar um elevado nível de qualidade e desempenho dos filtros, a Sogefi dispõe dos mais recentes conhecimentos técnicos nas áreas de concepção e fabricação.

Filtros de Aire

El filtro de aire puede compararse a los pulmones del automóvil. Está diseñado para eliminar el polvo que contiene el aire que entra en el motor. Los motores a plena carga necesitan entre 200 y 500 m³ de aire por hora dependiendo de su capacidad. Este aire contiene una cantidad variable de impurezas dependiendo

del país, las condiciones atmosféricas, el firme de la carretera, etc. Si no se filtra este polvo, causará el desgaste prematuro del motor. Para asegurar una filtración de alta calidad y rendimiento, Sogefi tiene los conocimientos industriales necesarios.

Air Filters

The air filter could be compared to the automobile's lungs. It is designed to eliminate the dust contained in the ambient air taken in by the engine. Depending upon the capacity, engines at full load can take in between 200 and 500 m³ of air per hour. This air contains a varying amount of impurities depending on the country, the weather conditions, the road surface, etc.

If this dust is not filtered, it will cause premature wear of the engine. To ensure a high level of filter performance and quality, Sogefi has the essential high performance industrialization know-how.

FILTROS DO DIESEL

Filtrros do Diesel

A finalidade de um filtro do Diesel é proteger a bomba injetora dos veículos com motor Diesel. Os filtros do Diesel eliminam as impurezas e asseguram a separação de qualquer água contida no Diesel. Além disso, os filtros do Diesel desempenham outras funções, satisfazendo os requisitos específicos de cada aplicação: aquecimento, regulação da pressão, detecção do nível da água, etc. A Sogefi desenvolve os seus produtos em parceria com os

principais fabricantes de automóveis. A experiência da Sogefi na área dos filtros do Diesel abrange os sistemas de injeção convencionais (bomba de distribuição), assim como os novos sistemas Common Rail. Através da melhoria constante dos meios de filtragem utilizados, a FRAM® fornece soluções adaptadas a exigências crescentes e a intervalos mais longos de substituição dos filtros, mantendo, simultaneamente, volumes reduzidos.

Filtrros de Gasoil

El propósito del filtro de gasoil es proteger el sistema de inyección de los vehículos diésel. Los filtros diésel eliminan las impurezas y separan el agua que pudiera contener el gasoil. Además los filtros de gasoil realizan otras funciones para cumplir las necesidades específicas de cada aplicación: calefacción, regulación de la presión, preparar, detección del nivel de agua, etc...

Sogefi desarrolla sus productos en asociación con los fabricantes de automóviles más importantes. La experiencia de

Sogefi en el campo de la filtración de gasoil abarca los sistemas convencionales de inyección (bomba de distribución) así como los nuevos sistemas common rail. Mediante la mejora constante de los medios de filtración utilizados, FRAM® ofrece soluciones adaptadas a la demanda creciente y a intervalos de sustitución de los filtros cada vez más largos, mantiene un tamaño del filtro de dimensiones reducidas.

Diesel Filters

The purpose of a diesel filter is to protect the injection system on diesel vehicles. Diesel filters eliminate impurities and ensure the separation of any water contained in the diesel fuel. In addition, diesel filters fulfil other functions meeting the specific requirements of each application: heating, pressure regulation, priming, water level detection, etc... Sogefi develops its products in partnership with the major vehicle manufacturers.

Sogefi's expertise in the field of diesel fuel filtration covers conventional injection systems (distributor pump) as well as the new common rail systems. Through the constant improvement of the filter media used, FRAM® provides solutions tailored to increasing demands and to longer filter replacement intervals, while maintaining a minimal filter volume.

FILTROS DO ÓLEO

Filtró do Óleo

Uma condiç3o essencial para que um motor de combust3o interna funcione corretamente 3 a lubrificaç3o constante das peç3as m3veis do motor, com os 3leos mantidos no n3vel de limpeza necess3rio, de forma a evitar qualquer desgaste prematuro. Para al3m disso, graç3as a uma constante an3lise de valor, a Sogefi tem a capacidade de fabricar filtros cada vez mais compactos e mais leves, produzindo, assim, menores

quantidades de produtos usados para coleta e reciclagem, o que, conseqüentemente, contribui para a proteç3o do meio ambiente. Enquanto l3der em filtragem automotiva, a Sogefi desempenha um papel ativo nos comit3s de normalizaç3o ISO e tem contribuído amplamente para estabelecer novos m3todos de teste precisos e fi3veis. Em particular, 3 poss3vel avaliar a efici3ncia dos filtros em funç3o do tamanho das part3culas encontradas.

Filtró de Aceite

Una condici3n esencial para que un motor de combusti3n interna funcione correctamente es que las partes m3viles del motor se lubriquen constantemente con aceite que se mantenga limpio para evitar el desgaste prematuro. Adem3s, gracias a su constante an3lisis de valor, Sogefi puede fabricar filtros cada vez m3s compactos y ligeros, con lo que se producen menores cantidades de residuos para recolecci3n y reciclaje y se favorece la

protecci3n medioambiental. Como l3der en sistemas de filtraci3n para autom3viles, Sogefi participa activamente en los comit3s de normalizaci3n ISO y ha contribuido en gran medida a establecer nuevos m3todos de evaluaci3n precisos y fiables. En particular, se puede evaluar la eficiencia del filtrado en funci3n del tama3o de las part3culas.

Oil Filters

One essential condition required for an internal combustion engine to operate properly is to constantly lubricate the moving parts of the engine with oils maintained at the necessary level of cleanliness so as to prevent any premature wear. In addition, thanks to constant value analysis, Sogefi is able to produce increasingly compact and lightweight filters thereby reducing

the amount of recycling which helps to protect the environment. As an automotive filtration leader, Sogefi plays an active part in the ISO standardization committees and has greatly contributed to establishing new modern test methods that are accurate and reliable. In particular, filter efficiency as a function of particle size can be evaluated.

FILTROS DA CABINE

Filtros da Cabine

Devido ao considerável aumento do tráfego global e ao inevitável agravamento dos níveis de poluição, estamos expostos ao ataque de muitos poluentes que invadem o interior dos veículos através dos dutos de ventilação ou do ar condicionado. A exposição prolongada a um elevado nível de poluição é desagradável e pode ter um efeito prejudicial sobre a saúde dos ocupantes do automóvel. O filtro de cabine (habitáculo ou anti-polen) bloqueia as menores partículas alergizantes que, nem sempre, são absorvidas pelo mucus respiratório ou pelas vias nasais e podem atingir os brônquios, provocando alergias

ou crises de asma. Para, além disto, os filtros de carvão ativado param as partículas e evitam os odores. O sistema de filtragem comporta uma camada de carvão ativado entre duas camadas de fibras de não tecido. Um filtro combinado (que filtra as partículas e os gases) permite reduzir a concentração de gases nocivos e desagradáveis, suscetíveis de provocar dores de cabeça e tonturas. A FRAM® propõe uma gama completa de filtros de cabine com a tecnologia mais adaptada a cada tipo de veículo (filtro anti-polen ou de carvão ativado).

Filtros de Aire para Habitáculo

Debido al considerable incremento del tráfico global y el inevitable aumento de los niveles de contaminación estamos expuestos al ataque de muchos agentes contaminantes que invaden el interior de los vehículos a través de los conductos de ventilación o aire acondicionado. La exposición continuada a altos niveles de contaminación no es recomendable e incluso puede tener efectos nocivos para la salud de los ocupantes del coche. El filtro de habitáculo bloquea las pequeñas partículas que podrían entrar en los pulmones y causar asma o alergias.

Nuestro filtro de habitáculo de carbón activo aumenta el efecto filtrante bloqueando todas las partículas y los olores desagradables. La superficie filtrante usada se compone de tres capas: una capa de carbón activo integrada entre las dos de "nonwoven" (tejido no tejido de fibra sintética). Un filtro combinado (que filtra partículas y gases) reduce la concentración de gases nocivos que causan dolores de cabeza y tos. FRAM® ofrece una gama completa de filtros de Habitáculo con la mejor tecnología adaptada a cada tipo de vehículo.

Cabin Filters

Because of the considerable increase of global traffic and the inevitable worsening of pollution levels, we are exposed to attack by many pollutants that enter the vehicle interiors through the ventilation or air conditioning ducts. Extended exposure to high pollution is disagreeable and can even have a serious effect on the health of the occupants in the car. The "stop-pollen" effect screens out even the smallest allergenic particles likely to enter the lungs and which may often lead to asthma or allergies.

Furthermore, the cabin air filter with activated carbon stops all particles and also odours. The filtering medium used consists of three layers: an active carbon layer placed between two layers of nonwoven fibres. A 'combi filter' (which filters out both particles and gases) reduces the concentration of noxious and odorous gases likely to provoke head aches and coughing. FRAM® offers a complete range of Cabin Air Filters, proposing technology that is the best adapted to each type of vehicle (pollen or activated carbon filter).

FRAM

9

FILTROS DA GASOLINA

Filtros da Gasolina

O filtro da gasolina protege o sistema de alimentação do motor (carburador ou injetor), eliminando quaisquer impurezas existentes no combustível. Os combustíveis filtrados ajudam, assim, a aumentar o desempenho e a vida útil do motor. Os requisitos operacionais relacionados com a substituição periódica do filtro foram abrangidos pela Sogefi, com linhas capazes de acomodar encaixes "rápidos", para que o filtro possa ser retirado

sem recorrer a ferramentas e com a máxima fiabilidade. Para assegurar um elevado nível de qualidade e desempenho dos filtros, a FRAM® utiliza um sistema de montagem de elevado desempenho totalmente automático. Todas as peças são testadas individualmente, para que satisfaçam os requisitos de segurança do produto.

Filtros de Nafta

El filtro de nafta protege el sistema de abastecimiento del motor (carburador o inyección) eliminando cualquier impureza del combustible. Así, el combustible filtrado ayuda a mejorar el rendimiento del motor y su vida útil. Sogefi ha cubierto las necesidades operativas relacionadas con el cambio periódico del filtro gracias al cableado capaz de alojar conexiones "rápidas", de

forma que el filtro se puede retirar sin necesidad de herramientas y con la máxima fiabilidad. Para asegurar una filtración de alta calidad y rendimiento, FRAM® utiliza instalaciones de montaje de alto rendimiento totalmente automatizadas. Cada pieza se evalúa individualmente para que cumpla los requisitos de seguridad del producto.

Petrol Filters

The petrol filter protects the engine supply system (carburetor or injector) by eliminating any impurities from the fuel. Filtered fuels thus help to increase engine performance and service life. Operational requirements related to the periodic replacement of the filter have been covered by Sogefi with lines capable of accommodating "quick" connections so that the filter can be

removed without tools and with maximum reliability. To ensure a high level of filter performance and quality, FRAM® uses fully-automatic high performance assembly facility. Each part is individually tested so that it meets the safety requirements for the product.

FILTROS DO ÁLCOOL

Filtros do Álcool

O filtro do álcool retém os contaminantes presentes no combustível, provenientes do transporte, estocagem e do próprio tanque do veículo, evitando a obstrução dos pequenos orifícios calibrados do carburador ou bicos injetores (válvulas injetoras). Atendendo à segurança da operação, eles protegem

carburadores, bicos de injeção direta e agregados extremamente sensíveis do sistema de alimentação do combustível. O elemento deste filtro possui materiais especiais para suportarem a corrosão gerada pelo álcool.

Filtros de Alcohol

El filtro retiene los contaminantes presentes en el combustible, provenientes del transporte, almacenaje y hasta el propio tanque del vehículo evitando la obstrucción de los pequeños orificios calibrados del carburador o inyectores de combustible. Teniendo en cuenta la seguridad de funcionamiento protege los

carburadores, las toberas de inyección directa y los componentes sensibles del sistema de alimentación de combustible. El elemento de este filtro tiene materiales especiales para resistir la corrosión generada por el alcohol.

Alcohol Filters

The filter retains alcohol contaminants in the fuel, from the transport, storage and tank of the vehicle itself, avoiding clogging of small orifices calibrated carburetor or fuel injectors (injector valves). Given the safety of the operation, they protect

carburetors, direct injection nozzles and aggregates extremely sensitive fuel supply system. The element of this filter has special materials to withstand corrosion generated by alcohol.

FILTROS FLEX FUEL

Filtros de Combustível Flex (Flex Fuel)

O filtro flex fuel retém os contaminantes presentes no combustível, seja álcool ou gasolina, provenientes do transporte, estocagem e do próprio tanque do veículo, evitando a obstrução dos pequenos orifícios calibrados do carburador ou bicos injetores (válvulas injetoras). Atendendo à segurança da operação,

eles protegem todo o sistema de injeção, e seus agregados. O elemento deste filtro possui materiais especiais que suportam tanto as propriedades da gasolina quanto do álcool.

Filtros Flex Fuel

El filtro flex fuel atrapa los contaminantes en el combustible, ya sea nafta o alcohol, de transporte, almacenamiento y depósito del vehículo mismo, evitando obstrucción de pequeños orificios calibrados carburador o los inyectores de combustible (inyector

válvulas). Teniendo en cuenta la seguridad de la operación, protegen todos sistema de inyección, y sus agregados. El elemento de este filtro tiene materiales especiales que soportan tanto las propiedades de la nafta y el alcohol.

Flex Fuel Filters

The flex fuel filter traps contaminants in the fuel, either gasoline or alcohol, from transport, storage and tank of the vehicle itself, avoiding clogging of small orifices calibrated carburetor or fuel injectors (injector valves). Given the safety of the operation, they

protect all sistema injection, and their aggregates. The element of this filter has special materials that support both the properties of gasoline and the alcohol.

SO/GEFI PRO

Sogefi Pro: especialista de veículos pesados

Há mais de 30 anos o Grupo Sogefi projeta, desenvolve e comercializa produtos de alta tecnologia para as principais montadoras. Atualmente a Sogefi também fornece filtros para o mercado de reposição focado na linha pesada (ônibus e caminhões), com a mesma qualidade e características do equipamento original. Com Sogefi Pro os negócios e veículos são muito mais rápidos, seguros e eficientes.

Sogefi Pro: expertos en vehículo pesado

Desde hace más de treinta años, el grupo Sogefi diseña, desarrolla y comercializa productos de alto nivel tecnológico para los fabricantes más exigentes. Hoy en día Sogefi pone este conocimiento especializado a disposición de los usuarios de vehículos pesados y autobuses, permitiéndoles conservar las características originales de sus vehículos. Con Sogefi Pro, el comercio es más rápido, más seguro y más eficaz.

Sogefi Pro: heavy duty expertise

For more than 30 years the Sogefi Group has designed, developed and marketed high technology products for leading manufacturers. And now Sogefi provides replacement filters of the same high quality as the original equipment fitted to heavy goods vehicles and buses. With Sogefi Pro, businesses and their vehicles are faster, safer, and more efficient.

GARANTIA E RESPONSABILIDADE

Garantía y responsabilidad
Warranty and responsibility

Garantia e responsabilidade

A SOGEFI outorga a seus clientes total garantia dos de fabricação dos produtos FRAM®, desde que sejam observados os seguintes pontos:

- Armazenamento correto, em locais isentos de poeira e/ou umidade.
- Instalação conforme as recomendações indicadas nas embalagens dos filtros FRAM®.
- Intervalo de troca recomendado pelo fabricante do veículo.

A garantia SOGEFI não cobre:

- os prejuízos que resultam da inadequação das recomendações de SOGEFI e dos construtores, uma má utilização, uma negligência, uma má montagem ou tentativas de abertura, de conserto ou modificação dos filtros;
- os prejuízos que resultam da inadequação dos filtros às especificações dos veículos fornecidas pelos construtores; os riscos, os arranhões e de um modo mais geral os prejuízos causados às partes externas dos filtros cuja deterioração não prejudica o bom funcionamento; o uso ou os efeitos prolongados da exploração dos filtros como engorduramento, oxidação, corrosão;
- os prejuízos que resultam de factores externos, incidentes e acidentes de todos tipos e os prejuízos cuja origem seria posterior à data de aquisição inicial.

SOGEFI compromete-se, nas condições previstas pela presente garantia, a substituir gratuitamente os filtros defeituosos e/ou não-conformes e a custear a reparação do veículo na hipótese onde este teria sofrido uma avaria ou deterioração directamente imputável ao defeito e/ou a não conformidade de um filtro de marca FRAM® constatado pelo Serviço Técnico de SOGEFI. As peças com defeito deverão ser enviadas à SOGEFI intactas e não desmontadas. Os filtros defeituosos entregues pelo utilizador final no âmbito da garantia serão objecto de um exame pelos peritos do Serviço Técnico da SOGEFI. O resultado deste exame poderá concluir, após a realização efectiva da substituição, se há uma avaria ou deterioração não coberta pela garantia o que terá por consequência a facturação da substituição do produto. A presente garantia não é exclusiva da aplicação das garantias legais, se for caso disso. SOGEFI não será responsável pelos prejuízos indirectos susceptíveis de serem sofridos pelo utilizador final devido a um funcionamento de um filtro FRAM®.

SEGURANÇA E RECOMENDAÇÕES

Os filtros FRAM® só devem ser utilizados em conformidade com as especificações e recomendações de utilização e montagem de SOGEFI e em conformidade com as dos construtores dos veículos sobre os quais estão instalados, especialmente no que diz respeito às operações de substituição dos filtros, de despejo e mudança de óleo.

Os filtros não devem ser desmontados, expostos a um risco de inflamação ou de deterioração, como uma chama ou um objecto aguçado ou uma superfície cortante. A inflamação ou a deterioração de alguns filtros pode ter por consequência a emissão de substâncias tóxicas e/ou oxidantes.

Durante a montagem dos filtros, os veículos devem imperativamente estar parados e imobilizados e o motor desligado tempo suficiente para que a temperatura do motor não comporte nenhum risco de queimadura. A montagem deve ser efectuada com os instrumentos adequados e não se deve forçar ou deformar os filtros ou o veículo. A substituição

do filtro deverá ser efectuada imperativamente com o motor desligado.

Após montagem, convém verificar a ausência de fugas. A verificação deve ser feita com o motor a trabalhar à temperatura normal. A presença de fugas pode ter por consequência uma avaria de motor e/ou um acidente de circulação. Na dúvida ou em caso de dificuldade ligada à escolha ou a montagem de um filtro FRAM® não duvidem em contactar o vosso Distribuidor aprovado ou o Serviço Técnico SOGEFI.

SEGURO QUALIDADE

A SOGEFI realiza um esforço permanente de investigação e de desenvolvimento que lhe vale estar à ponta das novas técnicas de filtração. Um dos líderes mundiais do seu sector, SOGEFI fabrica todos os seus produtos conforme as normas de qualidade e de performance entre as mais elevada. As fábricas SOGEFI são todas certificadas ISO/TS 16.949: o sistema de referências e a qualidade dos Fornecedores são reconhecidos mundialmente pela industria Automóvel. A SOGEFI sendo um fornecedor de equipamento original para os principais fabricantes de automóveis, é também, um fornecedor privilegiado no fornecimento das peças de substituição.

REFERÊNCIAS TÉCNICAS E EQUIVALÊNCIAS

O presente catálogo anula e substitui qualquer edição precedente. As referências e correspondências que se encontram neste catálogo foram analisadas pela SOGEFI com a maior atenção e critério. Contudo, na medida em que estas informações podem ter sido objecto de modificações desde a sua integração no catálogo, só têm um carácter indicativo que de que maneira nenhuma poderá ser da responsabilidade da SOGEFI. Além disso, as equivalências entre os produtos FRAM® e os produtos dos construtores e dos concorrentes procedentes do índice universal e das tabelas de correspondências não comportam nenhuma garantia de identidade e de permutabilidade por parte da SOGEFI e não poderão de maneira nenhuma ocasionar a sua responsabilidade no caso de funcionamento. É sempre aconselhado referir-se aos dados e preconizações dos construtores e recorrer ao conselho de um profissional para escolher um produto adaptado com o fim de evitar qualquer risco de funcionamento. O vosso Distribuidor aprovado e o Serviço Técnico SOGEFI estão à vossa disposição para toda informação e esclarecimento.

E Garantía y responsabilidad

SOGEFI garantiza al usuario final no profesional, durante un período de dos años (para un comprador en un país miembro de la Unión Europea) a partir de la fecha de adquisición inicial, que los filtros nuevos de marca FRAM® están exentos de defectos materiales y de fabricación, a condición de cumplir las recomendaciones específicas de montaje, mantenimiento y utilización de SOGEFI y de los constructores de los vehículos sobre los cuales se instalan los filtros. Los usuarios finales profesionales, los distribuidores y los revendedores benefician de una garantía similar conforme a los términos de las Condiciones Generales de Venta de SOGEFI.

La garantía SOGEFI no cubre:

- los daños que resultan del no cumplimiento de las recomendaciones de SOGEFI y de los constructores, de una mala utilización, de una negligencia, de un mal montaje o de tentativas de apertura, reparación o modificación de los filtros;
- los daños que resultan de la no adecuación de los filtros a las especificaciones de los vehículos proporcionadas por los constructores; las rayas, rasguños y en general de los daños causados a las partes exteriores de los filtros cuyo daño no perjudica al buen funcionamiento; el desgaste o los efectos prolongado de utilización de los filtros tal como ensuciamiento, oxidación, corrosión;
- los daños que resultan de hechos exteriores, incidentes y accidentes de toda clase y en general de los daños cuyo origen sea posterior a la fecha de adquisición inicial.

SOGEFI se compromete, en las condiciones previstas por la presente garantía, a sustituir gratuitamente los filtros defectuosos y/o no conformes y a asumir el arreglo del vehículo en el supuesto de que éste haya sufrido una avería o un deterioro directamente imputable al defecto y/o a la no conformidad de un filtro de marca FRAM® comprobado por el Servicio Técnico SOGEFI.

Los filtros defectuosos entregados por el usuario final en el marco de la garantía serán sometidos a un peritaje por el Servicio Técnico SOGEFI. Los componentes defectuosos serán devueltos a SOGEFI intactos, y no desmontados. El resultado de este peritaje podrá concluir, después de la realización efectiva de la sustitución, a una avería o deterioro no cubierto por la garantía lo que tendrá por consecuencia la facturación de la sustitución del producto. La presente garantía no es exclusiva de la aplicación de las garantías legales, si procede. SOGEFI no será responsable de los daños indirectos susceptibles de ser sufridos por el usuario final debido a mal funcionamiento de un filtro FRAM®.

SEGURIDAD Y RECOMENDACIONES

Los filtros FRAM® solo deben ser utilizados de conformidad con las especificaciones y recomendaciones de utilización y de montaje de SOGEFI y de los constructores de los vehículos sobre los cuales se instalan, en particular, por lo que se refiere a las operaciones de sustitución de los filtros, del vaciado y cambio de aceite.

Los filtros no deben ser desmontados, expuestos a un riesgo de inflamación o de deterioro, como puede ser una llama o un objeto puntiagudo o una superficie cortante. La inflamación o el deterioro de algunos filtros puede tener por consecuencia la emisión de sustancias tóxicas y/u oxidantes.

En el montaje de los filtros, los vehículos deben imperativamente estar parados e inmovilizados, y el contacto motor cortado desde un plazo de tiempo suficiente para que la temperatura del motor no implique ningún riesgo de quemadura. El montaje debe efectuarse con las herramientas apropiadas y no debe implicar una acción de fuerza o una deformación tanto los de los filtros como de las partes de los vehículos sobre las cuales están instaladas. La sustitución de los filtros jamás debe efectuarse con el motor en funcionamiento.

Después del montaje, conviene verificar la ausencia de derrame. La comprobación debe hacerse con el motor encendido a temperatura normal. La presencia de derrames puede tener por consecuencia una avería de motor y/o un accidente de circulación. En caso de duda o de dificultad vinculada a la elección o al montaje de un filtro FRAM® no duden en contactar con su Distribuidor autorizado o el Servicio Técnico SOGEFI.

GARANTÍA DE CALIDAD

SOGEFI realiza un esfuerzo permanente de investigación y desarrollo que le permite ser puntero en las nuevas técnicas en el ámbito de los filtros. SOGEFI, uno de los líderes mundiales de su sector, fabrica el conjunto de sus productos según las más altas normas de calidad y de aptitud. Las fábricas SOGEFI están todas certificadas con las normas ISO/TS 16 949: la referencia de calidad de los constructores y fabricantes de bienes de equipos reconocida mundialmente en la industria automóvil. Fabricante y proveedor privilegiado de productos de Primera Monta para los principales constructores automóbiles, SOGEFI comercializa para el Recambio de los productos que responden a las prescripciones y especificaciones técnicas estipuladas o preconizadas por los constructores automóbiles.

REFERENCIAS TÉCNICAS Y EQUIVALENCIAS

El presente catálogo anula y sustituye cualquier edición anterior. Los datos contenidos en el presente catálogo como las referencias técnicas de vehículo, motor y filtros, así como las correspondencias están compilados por SOGEFI con el mayor cuidado. Sin embargo, en la medida en que estos datos pueden ser objeto de modificaciones desde su incorporación al catálogo, solo tienen un carácter indicativo que no pueden de ninguna manera generar la responsabilidad de SOGEFI.

En cambio, las equivalencias entre los productos FRAM® y los productos de los constructores y de los competidores resultantes del índice universal y las tablas de correspondencias no implican ninguna garantía de identidad e de íter cambiabilidad por parte de SOGEFI y no podrán de ninguna manera generar su responsabilidad caso mal funcionamiento. Se recomienda siempre referirse a los datos y recomendaciones de los constructores y recurrir al asesoramiento de un profesional para elegir un producto adaptado con el fin de evitar un riesgo de mal funcionamiento. Su Distribuidor autorizado y el Servicio Técnico SOGEFI están a su disposición por toda información y explicación complementaria.

SOGEFI guarantees to the non-business end-user (a buyer from one of the member states of the European Union), for a period of 2 years from the initial date of purchase that the new filters branded FRAM® are free from both physical and manufacturing defects, subject to the end user's compliance with specific recommendations made by SOGEFI and manufacturers of the vehicles on which the filters have been installed, in respect of assembly, maintenance and usage. Business buyers, distributors and dealers benefit from a similar warranty provided in SOGEFI's General Terms of Sale.

SOGEFI's warranty, as above, does not cover:

- damage caused by non-compliance with recommendations given by SOGEFI and the manufacturers recommendations,
- incorrect use, negligence, incorrect assembly or attempts to open up, repair or modify the filters,
- damage resulting from the use of filters which does not correspond with the specifications provided by the manufacturers,
- scratches, grazes and other damage to external parts of the filters, or any other damage which does not prevent the product from functioning effectively,
- general wear and tear or extensive use of the filters, leading to clogging, oxidation, corrosion,
- damage caused by external factors, all types of incidents and accidents and general damage occurring after the date of the initial purchase.

SOGEFI undertakes, subject to the terms of the above warranty, to replace free of charge, defective filters and/or filters which do not comply with the manufacturer's specifications and to pay for the repair of a vehicle should it break down or suffer damage as a direct result of a defective or non-compliant filter branded FRAM® as recorded by SOGEFI's Technical Department. Defective parts shall be returned to SOGEFI on request intact and not disassembled. All defective filters which the end-user considers to be covered by the warranty will be the subject of an evaluation by SOGEFI's Technical Department. The evaluation may conclude after the relevant products have been replaced, that a breakdown or damage is not covered by the warranty. This will result in an invoice being sent to the end-user to cover the cost of the replacement products.

This warranty does not affect your statutory rights.

SOGEFI will accept no liability for indirect loss or damage caused to the end-user as a result of the malfunctioning of a Fram® filter.

SAFETY RECOMMENDATIONS

FRAM® filters must only be used in accordance with SOGEFI's recommendations and specifications of assembly and utilisation, and those of the vehicle manufacturers on which filters have been installed, in particular, in relation to the replacement of filters and oil changes.

The filters must not be taken apart, exposed to an inflammable risk or the risk of damage such as naked flames, pointed objects or sharp surfaces. The inflammation or damage of certain filters could result in the emission of toxic and/or oxidising substances.

While the filters are being assembled, it is imperative that the vehicle is stationary and immobilised and that the ignition has been switched off for such time to prevent any risk of burn injuries resulting from the high temperature of the engine. The assembly must be carried out with appropriate tools and without any forcing or bending of the filters or the vehicle parts on which they have been installed. Replacement of filters shall never be carried out when engine is on.

After the assembly, it is necessary to check that there are no leaks. The checks must be carried out when the engine is running at a normal temperature. If leaks do occur, this can cause the engine to break down and/or a road accident.

If you have any doubts or other queries relating to the choice or assembly of a filter FRAM®, please do not hesitate to contact your distributor or the SOGEFI Technical Department.

QUALITY ASSURANCE

SOGEFI is dedicated to research and development and as a result is at the cutting-edge of new filtration methods. As one of the world leaders in its sector, SOGEFI manufactures all its products according to the highest quality standards and performance levels. SOGEFI's factories have all been certified ISO/TS 16 949, an international quality standard recognized by all automotive manufacturers.

As SOGEFI is the manufacturer and supplier of choice to the leading automotive manufacturers for original parts, it markets spare parts which comply with the technical specifications laid down by car and industrial vehicle manufacturers.

TECHNICAL REFERENCES AND EQUIVALENT PRODUCTS

The present catalogue overrides and supercedes any previous editions. SOGEFI has taken great care in the present catalogue to ensure the accuracy of the compilation of technical references concerning vehicles, engines and filters. However, since the information in the catalogue may have been updated since it was included in the catalogue, SOGEFI is not able to accept liability for the accuracy of the content. Furthermore, similarities between FRAM® products and the products of manufacturers and competitors listed in the world index and table of correspondents shall not constitute any warranty from SOGEFI as to similarity and interchangeability of products and under no circumstances shall SOGEFI accept any liability in the case of the malfunctioning of a product. You are advised to refer to the information and recommendations provided by the manufacturer and seek professional advice when choosing a suitable product in order to avoid the possibility of a malfunctioning product. Your authorised distributor and SOGEFI's Technical Department are always willing to respond to any of your queries and matters needing clarification.
