5 MINUTE PERFORMANCE UPGRADE!

OE Replacement Air Filters

Never Replace Your Air Filter Again

- Designed to Increase Horsepower and Acceleration
- Washable and Reusable
- K&N Million Mile Limited Warranty®

See page 477 for complete details

- Drops into Your Factory Air Box in 5 Minutes
- Up to 50,000 Miles Between Cleanings*

*Under normal highway driving conditions

Won't Void Vehicle Warranty

Designed to Increase Horsepower

This is the original high-flow air filter invented by K&N®. It is made with layers of woven cotton for a washable filter that offers high airflow that can increase your car's horsepower and acceleration. For better performance and value over the life of your car, you cannot go wrong with our most popular product.

Save Money and Reduce Waste

One K&N® OE Replacement Air Filter costs less than replacing disposable air filters over and over again. Washable air filters also help reduce the number of disposable air filters thrown into our landfills each year.

Thousands of microscopic cotton gauze fibers naturally hold specially designed oil in suspension to create a powerful filtering medium

Cotton breathes easier increasing airflow to help your car run better.

Filter media is shown before K&N® filter oil is applied.

5 MINUTE PERFORMANCE UPGRADE!

**Built to Last for
the Life of Your Car**

OE Replacement Air Filters

Designed to Improve Engine Performance

Air Filter Testing

We invented high-flow cotton air filters to reduce air filter restriction while maintaining outstanding protection. A high-flow air filter can help your car run better by allowing an engine to breathe easier. Higher airflow with less restriction can increase horsepower and acceleration.

AIRFLOW COMPARISON CHARTS[†]

These charts are examples of individual filters. Results will vary depending on part number and vehicle. Complete test protocol and results available at knfilters.com.

Average Disposable
Aftermarket Air Filter

K&N Washable
Reusable Air Filter

[†] Dust-free airflow tests performed on laboratory equipment. These tests measure airflow of clean air filters in cubic feet per minute (CFM) at 1 1/2" of water pressure drop. Actual airflow rates will vary for these or other part numbers.

To help ensure we continue to deliver a quality product, we perform thousands of tests, including the following:

- Airflow and restriction test measurements
- Filtration efficiency in accordance with the ISO 5011 test protocol
- Vehicle horsepower testing on inertial dynamometers
- Vibration and heat cycling durability testing to simulate actual driving conditions

**WASHABLE
REUSABLE
PERFORMANCE®**

Easy to Install - Usually No Tools Required

Step 1: Open the vehicle's air box.

Step 2: Remove the disposable filter.

Step 3: Place the K&N Washable/Reusable Air Filter into the air box.

Step 4: Close the air box and apply the "Do Not Discard" decal.

K&N OE replacement air filter #33-2342 installation shown on a 2011 Honda Civic 1.8L. Installation may vary for your vehicle.

THE ULTIMATE POWER UPGRADE!

Performance Air Intake Systems

Get up to Four Times More Horsepower Than From a K&N® OE Replacement Air Filter Alone

- Guaranteed to Increase Horsepower
- Washable and Reusable High-Flow Air Filter
- Easy to Install in 90 Minutes or Less
- Oversized Air Filter Can Go Up to 100,000 Miles Between Cleanings**
- Better Engine Sound
- K&N Million Mile Limited Warranty*

** Under normal highway driving conditions

See page 477 for complete details

77-2584KP

**OVER 500
SYSTEMS AVAILABLE**

A Complete Air Delivery System

K&N® intake systems completely replace the factory air intake assembly with an aerodynamically engineered tube and an oversized conical air filter. Most systems come with a heat shield to help isolate the air filter element from the warm air generated by the engine. Cooler air results in better performance and power.

A typical installation can be done with a screwdriver, pliers and a ratchet set in 90 minutes or less! We specifically engineer our kits to use factory holes and mounting points, making installation simple. The vast majority of our kits do NOT require any cutting or drilling.

SOME INTAKE SYSTEMS ARE NOT LEGAL FOR SALE OR USE ON ANY POLLUTION CONTROLLED MOTOR VEHICLE IN CALIFORNIA OR STATES ADOPTING CALIFORNIA EMISSION PROCEDURES.

See knfilters.com for CARB status on each part for a specific vehicle

* Where applicable

THE ULTIMATE POWER UPGRADE!

Performance Air Intake Systems

Guaranteed to Increase Horsepower

Better Sound and More Power You Can Feel

You'll smile at your car's new sound. A K&N® intake system will make your car growl when under acceleration, yet stay quiet once at speed. You'll be thrilled when you feel the increased acceleration and horsepower. Plus you can feel confident knowing that your intake system is backed up by the best and largest aftermarket intake company in the World.

K&N Million Mile Limited Warranty*

Each intake system we design is tested for durability and power improvement. From vibration stands to dynamometers, to over the road testing, we put our intake systems through rigorous requirements so we can back them up with our Million Mile Limited Warranty.

Extend Your Cleaning Interval to 100,000 Miles

These intake systems come with oversized conical air filters that only require cleaning every 100,000 miles under normal highway driving conditions.

SOME INTAKE SYSTEMS ARE NOT LEGAL FOR SALE OR USE ON ANY POLLUTION CONTROLLED MOTOR VEHICLE IN CALIFORNIA OR STATES ADOPTING CALIFORNIA EMISSION PROCEDURES.

See knfilters.com for CARB status on each part for a specific vehicle

TUBES AND FINISHES

High Density Polyethylene (HDPE) Tubes

Some Part numbers starting with: 57, 63†

- Non-Metallic Rotationally Molded Tubes That Help Reduce Turbulence and Accelerate Airflow into the Engine for More Power

Part numbers start with: 57, 63†

Some part numbers starting with: 63†

Part numbers end with: TS, KS

Part numbers end with: TWR

Aluminum Tubes

Part numbers starting with: 69, 71, 77

- Free-Flowing, Mandrel-Bent Systems Built for Performance and Show and Available in an Assortment of Finishes

Carbon Fiber Tubes

Some part numbers starting with: 63†

- Lightweight, Attractive and Strong Composite Used in Some of Our Complete Air Delivery Systems

Part numbers end with: KP, TP, P

Part numbers end with: TTK, KTK, TFK, TWK and part numbers that start with: 71

Part numbers end with: TR

Part numbers end with: TB

† Intake systems starting with 57 or 63 usually incorporate molded High Density Polyethylene Tubes.

HIGH-FLOW PERFORMANCE MADE EASY

Auto and Light Duty Truck Oil Filters

Our Premium Oil Filter

- Filter Nut Makes Installation and Removal Quick and Easy
- Heavy Gauge Canister with Leakproof Double-Rolled Seams
- Designed for Higher Burst Strength and Protection from Road Debris
- Specially Designed for Today's Synthetic and Extended Service Motor Oils

Premium Grade Wrench-Off® Oil Filters

We've all been there: whether it's remembering where that filter removal wrench is; having oil leak all over your garage and yourself; or finally giving up and pounding a screwdriver through the filter just to get it off. Most of our oil filters come with a nut welded to the top of the canister so they can be easily wrenched-off with a standard tool.

High-Flow Rate

Our oil filters use resin impregnated cellulose filter media. This allows for higher flow rates while providing outstanding filtration. High filter flow rates are important in racing vehicles where heavier grade oil is used and the oil is pumped much faster than in a standard vehicle. When the engine is circulating oil at high GPM rates, the high-flow oil filter helps reduce the loss of pressure through the filtering process.

Heavy Duty Construction for Extreme Conditions

To satisfy the demands of racers, our premium Wrench-Off® Oil Filter has many features over and above the requirements of most vehicles. We use thicker canister walls for extra strength and durability which reduces the risk of damage from loose rocks and debris. The heavy duty construction will withstand higher oil pressures. The drilled hole in the nut is for a safety wire attachment. Required for many types of racing, the safety wire can prevent blown oil filters from falling on the track and presenting a hazard to other race vehicles. This extra engineering offers peace of mind for consumers who want only the best.

Bypass/Pressure
Relief Valve*

Extended Life Makes Dollars and Sense

Many vehicle manufacturers are now recommending average oil change intervals of 10,000 miles or longer for newer vehicles using certain synthetic motor oils.** K&N® premium Wrench-Off® Oil Filters are the perfect partner for synthetic oils and extended oil change intervals. Extending your oil change intervals can save you time and serious money. Don't let an oil filter designed to last 3,000 miles be the weak link in the chain. K&N's premium Wrench-Off® Oil Filters are built to go the distance.

* Where applicable

** Always follow the factory recommended oil change intervals found in your vehicle owners manual.

GIVE POWER AND PROTECTION A TRY

Replacement Air Filters and Performance Intake Systems

Filtration for Demanding Vehicles and Drivers

High-Flow Diesel Intake Systems

- Guaranteed Increase in Horsepower
- Better Engine Sound
- 6 Layers of Extra Fine Weave Cotton
- Up to 100,000 Miles Between Cleanings**

High-Flow Diesel Air Filters

- Designed to Increase Horsepower
- Washable and Reusable
- 6 Layers of Extra Fine Weave Cotton
- Up to 50,000 Miles Between Cleanings**
- 50-State Street Legal

K&N® high-flow diesel air filters are made with more layers of cotton filter media than our standard OE replacement air filters.

Light Duty Turbo Diesel Truck Filtration

A diesel engine is a tough environment; that's why we build diesel air filters to even higher specifications. They typically use deeper pleats in larger sizes to increase surface area for more capacity and airflow. They contain more cotton in different grades and configurations to achieve higher levels of efficiency. When you put a K&N® diesel air filter to work, you can feel confident that you've got a product specially designed and tested for your diesel's specific engine demands.

UPGRADES FOR POWERSPORTS VEHICLES

K&N® Motorcycle and ATV Air and Oil Filters

We have been manufacturing performance filters since the late 1960's. Designed to drop into your factory airbox, we offer over 400 stock replacement high-flow air filters, including products for cruisers, sportbikes, and ATVs. We also produce specialty air filters and performance air intake systems** for select cruisers, ATVs and side by sides.

Outside of air filtration, we manufacture a premium oil filter built with synthetic media designed to be compatible with both synthetic and petroleum based oils. The special synthetic media is designed to withstand the high concentrates of synthetic racing oils while providing both high flow rates and outstanding filtration. K&N® oil filters deliver performance and confidence!

Powersports air and oil filters are listed in this catalog. For the complete Powersports line see knfilters.com or request a K&N® Powersports catalog at 1-800-858-3333.

CUSTOM ENGINEERED FOR CLASS 6-8 DIESEL TRUCKS

Commercial Grade Heavy Duty Truck Air Filters

Hybrid Filtration Media – No Oil Required

▪ Designed to Improve Horsepower ▪ Easy to Clean

Heavy Duty

- Motorhomes and Recreational Vehicles
- Bus/Fire/Transport Vehicles
- Class 6-8 Trucks and Diesel Equipment
- Construction and Earth Moving Equipment

Commercial Grade Construction

Our diesel air filters are constructed with extra strength and reinforcements to withstand the harsh conditions that can be found in commercial use. The hybrid filter medium is pleated and placed between two powder-coated aluminum screens for consistent surface area that can smooth and straighten airflow. The reinforced medium is then held between a top plate or molded urethane end cap and a molded urethane seal. These ends are molded to a powder-coated steel cage to help withstand the extreme temperatures and pressures that can be present in large turbo diesel applications. This means the filters will not collapse or lose their seal even under the high levels of compression that may be encountered in commercial environments.

DRYFLOW
AIR FILTER TECHNOLOGY

A Washable Diesel Air Filter

The power, durability and design of turbo diesel engines create unique air filtration demands. K&N® has developed a new line of washable heavy duty air filters using our hybrid filtration medium. These depth loading air filters deliver very high filtration efficiency, large dust holding capacity and high airflow, making them perfect for large turbo diesel class 6-8 over-the-road trucks, agriculture and earth moving equipment.

Spray on degreaser

Spray off dirt

Our robust hybrid filtration medium is comprised of lofted non-woven synthetic fibers to create a three-dimensional medium capable of providing high airflow and dirt capacity.

Designed To Improve Performance

Our heavy duty diesel air filters are designed to improve performance and durability. When air filter restriction becomes too high, simply wash our filter and it's ready to go again for a total service life of up to 300,000 miles. They are incredibly easy to maintain and can be cleaned with power sprayers and pressure washers.

Robust Construction – Easy To Clean

These filters are very robust, which means they are incredibly easy to clean and nearly indestructible. After you apply our special degreaser, part number 99-0638, you can use pressure washers, compressed air, or water hose nozzles to clean the dirt and grime out of the filter. The filter does not even have to be completely dry to be re-installed.

Commercial Grade Diesel Air Filter Warranty

These air filters are backed by a three-year/300,000-mile limited warranty. They are meant to be washed and reused over and over.

BUILT TOUGH FOR DEMANDING CONDITIONS

Commercial Grade Heavy Duty Truck Air and Oil Filters

Cross references should be used for comparison of filters with similar dimensions. The user assumes all responsibility for verifying that filters are compatible with their vehicle before using these products. Damage may result if the user fails to ensure that the filter is compatible and seals properly before installing the product or operating the engine. Please call K&N's Customer Service Department at 1-877-AIR-FILTER for assistance when choosing the appropriate replacement oil filter.

K&N® GOES BEYOND YOUR AUTOMOTIVE NEEDS

Mobile and Auxiliary Power Equipment Air Filters

Most Featuring Dryflow® Filtration Media – No Oil Required

Washable and Reusable Air Filters for Generators, Landscape Equipment, Refrigeration Units and More

K&N® offers air filters for many types of mobile and auxiliary power equipment using our Dryflow® air filtration medium. Most of these filters are made from a non-woven synthetic material designed to be used dry with no oil required. This material makes these air filters very easy to clean using power washers, pressure sprayers or hose nozzles. Our Dryflow® filter has a lofted three-dimensional feature which adds depth loading and large dust holding capacities.

**The Original
Performance Air Filter of**

Dedicated to NASCAR® Racing

K&N® traces its involvement with NASCAR back to the 1970s, the early days of supplying parts for the NASCAR Sprint Cup Series™ races at the old Riverside Speedway. And our dedication to racing is strengthened each time we develop our products at racetracks, and support race teams at all levels of NASCAR competition.

**From NASCAR®
to Your Car**

Now you can use the same air filter technology used in NASCAR to improve the performance of your car. K&N® high flow air filters are specially designed to reduce airflow restriction and improve horsepower by using layers of cotton instead of paper media. Cotton breathes easier and is washable. One K&N® high flow replacement air filter can last for the life of your car and only needs to be cleaned every 50,000 miles under normal driving conditions. Better performance and longer life from K&N®, the original performance air filter of NASCAR.

As the title sponsor of the NASCAR K&N Pro Series East and West, K&N® is once again helping to support developing drivers. This mirrors our 25 year commitment to grass-roots racing and local event sponsorship. This is the premier developmental series created by NASCAR to help drivers learn the skills they will need to be able to compete at the national event level. So if you want all the thrills and chills of NASCAR in a smaller setting, go check out a NASCAR K&N Pro Series™ race at one of the tracks near you.

NASCAR® is a registered trademark of the National Association for Stock Car Auto Racing, Inc.

CLAMP-ON AIR FILTERS

Clamp-On Air Filter Specifications

K&N® universal air filters are designed and manufactured for a wide variety of applications. Regardless of the angle, offset, or diameter of the air intake, there is probably a K&N® universal air filter available for your equipment. All filters are constructed with ultra-strong molded pliable rubber flanges which absorb vibration and allow for secure attachment, and can also be stretched up to 1/16" (1.5 mm) to fit in-between sizes. K&N® universal air filters are available in round, tapered and oval designs, for just about any special application.

OVER 800 SIZES AVAILABLE

These products are not street legal on vehicles with regulated emission control systems unless used as a direct replacement air filter for a street legal intake system.

Composite

With advanced composite technology, carbon fiber provides incredible strength with minimal weight. Carbon fiber provides 1/3 less weight than a conventional filter top. Smooth, glass like appearance provides the ultimate in finish, fit, and function.

Inverted

This unique approach to filter design and concept utilizes a filtering top that actually inverts, dropping into the cylinder of the filter! Surface area is greatly increased and designed to provide more filtration than other comparably sized products.

Titanium

When it comes to exotic race materials, titanium is well known for its lightweight and increased strength to weight ratio. Offering lighter weights than conventional filter tops and more rigidity, K&N® titanium top filters are the next generation in filter design.

Steel Base Crankcase Vent Filters

One Piece Design For Competition Use

Steel base crankcase vent filters have vent tubes added to their base. Filters consist of a one piece design with a rubber or chrome top. Filters with mounting studs can be mounted remotely, but require vent hoses and clamps. Filters mounted direct can be pressed into rubber grommets in valve covers. All baseplates are chrome plated and tubes are zinc.

Crankcase Vent Filters With and Without Deflector Shield

Universal mounting, for a wide variety of valve covers. All shields and top plates are chrome-plated for beauty and durability.

Style 1

Universal "push-in" filter for all valve covers. Note: Not recommended to be used as an oil filter plug, as repeated removal will damage the filter.

VENT FILTER SIZE	PART#
3" OD; 2 1/2" H; 1 1/4" hole, w/shield	62-1516
3" OD; 2 1/2" H; 1 1/4" hole, w/o shield	62-1490
2" OD; 2 1/4" H; 1 1/4" hole, w/o shield	62-1485
1 1/8" FLG-OD, 9/16" FLG ID, 2" OD, 2 1/8" H	62-1230

Style 4

Nylon reinforced adapter plus a 3" O.D. x 2 1/2" tall filter, with or without deflector shield. 3" tall universal mount, requires a 1 1/4" I.D. hole, and a 2" square, flat surface. Comes complete with mounting hardware.

DESCRIPTION	PART#
Without deflector shield	85-1221
With deflector shield	85-1222

Style 2

Universal "clamp-on" for valve covers with existing vent tubes. All filters are 3" O.D. with deflector shields and 2 1/2" tall.

VENT FLANGE DIAMETER	PART#
1" I.D.	62-1511

Nylon Reinforced 3" Tall Valve Cover Adapters

Requires a 1 1/2" I.D. flanged filter (purchased separately).

DESCRIPTION	PART#
Screws into Ford valve covers	85-1200
Screws into late GM valve covers	85-1210
Universal mount (see style 4)	85-1220

Tower Base Covered Crankcase Vent Filter with Multi-Hose Vents

Designed for VW and other like-size engines needing maximum crankcase breathing filtration. Saves blow-by oil while relieving crankcase pressure. K&N® air filter stops dirt from reaching oil supply. Bottom fitting should connect to engine's lowest pressure point (such as a rocker cover). Top side fitting should connect to engine's highest pressure point (such as the crankcase).

Cast Aluminum Tower: Universal mount, internal oil baffles, three 3/8" NPT outlets for braided hose fittings.

Chromed Steel Tower: No inner baffles. Adjustable steel mounting bracket and three 1/2" vent tubes for use with rubber slip-on hose.

TOWER STYLE	TOWER DIMENSIONS	NUMBER OF OUTLETS	COVER DIAMETER & HEIGHT	ELEMENT DIAMETER & HEIGHT	REPLACEMENT ELEMENT PART#	COMPLETE ASSEMBLY PART#

RX-3770

XSTREAM® Air Filters Designed For Serious Racers

Xstream® air filters take performance to the next level with innovative K&N® airflow technology. They provide awesome airflow and outstanding filtration. In any form of racing, racers need all the protection and airflow they can get. Two styles of Xstream® air filters are available: standard tapered or reverse tapered (top is larger diameter).

Notes: 1) Filter has molded-in velocity stack. 2) Extreme duty off-road filter. 3) Open style top.

For Racing Vehicles Using VW Engines

Universal air filter designed for 2 1/16" VW Solex and 2 9/16" Zenith-Holley carburetors. One piece construction with a strong rubber base and flange that clamps directly to the carburetor. Some units have 1/2" vent kits included, for easy installation of vent hoses. Choice of show quality chrome or rubber top. Chrome adds a touch of class, rubber is great for rugged off-road use. Three shapes or styles and numerous heights available - see listings below.

Carburetor Adapters

For remote mounting of air filter using smooth bore 3" I.D. hose. Do not use accordion flex hose as it restricts airflow and is difficult to seal properly.

CARBURETOR	FLANGE SIZE	ADAPTER O.D.	PART#
VW Solex	2 1/32"	3"	85-1010

*1/2" vent comes as standard equipment.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

Individual Round Style Stacks

"Early Type" Fuel Injectors (Single Stacks) for Chevrolet, etc.

Filters designed to fit with cut velocity stacks, or straight pieces of exhaust tubing. Rubber filter bases come with molded in velocity stack type radius and step, for smooth bore down from element to tube. Each filter has a rubber top with a K&N® logo.

Each filter sold individually.

Hilborn 4, Injectors Fitted to Honda & Kawasaki Engines in T.Q. Midgets

Air filters designed to fit over stock, uncut ram tubes. Filters come complete with rubber mounting adapters. To install, fit rubber adapters around ram tube bases and fit filters over ram tubes and clamp onto adapters in desired position. Air filters come with chrome end caps. Fits #45-K-4A and #45-H-4B Hilborn injectors and are packaged in sets of four. Filters measure 3" O.D. x 6" L and fit 1 1/2" Ram Tubes. Part# RD-1004

Hilborn Injectors for Blowers & Turbos

Air filters designed to fit over stock, uncut ram tube. Filter comes complete with rubber mounting adapter. To install, fit rubber adapter around ram tube base. On early screw-on ram tube type, cut adapter with razor blade and wrap around tube. Fit filter over ram tube and clamp onto adapter in desired position. Air filters come with chrome end caps.

DESCRIPTION	PART#
Hilborn Injector #525, for Magnuson Super Chargers. Used on American V-Twin and V.W. blown engines. Filter fits 2 1/8" ram tube. Measures 6" dia. top, 5 1/2" dia. base, 6" long	RD-1100
Hilborn Injector #523, for 60 c.i. Magnuson Blower Head. Filter fits 2 1/2" ram tube. Measures 7" dia. top, 7" dia. base, 6" long	RD-1200
Hilborn Injector #524, for 80 c.i. Magnuson Blower Head. Filter fits 3" ram tube. Measures 7" dia., 6" long	RD-1300
Hilborn Injector #F414A, for Turbocharged tractor, air filter clamps over 4" lip on cast ram tube. Air filter measures 7" dia., 6" long	RD-1400
Hilborn Injector #F414A, for Turbocharged tractor, air filter clamps over 4" lip on cast ram tube. Air filter measures 7" dia., 8" long	RD-1410

Note: 1) Rubber mounting adapter not required. Filter mounts directly to injector.

RD-1400

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

RACING, HOT ROD, & CUSTOM PRODUCTS

Dual Oval Style Stacks

"Late Type" Hilborn Siamese Stacks

Filters are designed to be used with stock, uncut, siamesed ram tubes. Comes with removable aluminum top plate. To install, push Ram Tubes through rubber base and clamp at desired height. Oval top plate measures 9"L x 5 1/2"W, total height is 6 3/4".

100-8580

Carbon Fiber Injected Stack Filter

Lightweight, yet durable, the K&N® carbon fiber injector stack filter is a must for any racer currently using traditional multi-Siamese stacks. Constructed from ultra-light weight carbon fiber. A carbon fiber injector stack filter provides ample airflow for your racing needs. The base does not have any holes cut through, so it can fit most any stack configuration. Once the base has been put in place, simply slip the main filter assembly

Driver: Jason Johnson

Photo: John Lee/High Fly'N Photos

over the stacks. Supplied spring clip clamps keep the filter securely together for positive seal and ease of servicing. Extra large box. 27 3/16"L x 16 1/8"W x 6" H. **Part# 100-8580**

Carbon Fiber Airboxes

If maximum airflow is what you are looking for, a carbon fiber airbox is your ticket. This allows you to do away with clamping a filter on to each individual ram tube. Once the base has been put in place, simply slip the main filter assembly over the stacks. This airbox will allow your vehicle's engine to breathe all the clean air it needs to make you a winner. As with all K&N® filters, this is a washable and reusable air filter. Simply use our K&N® oil and cleaner to service your filter.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

Racing Cone Filters

Designed for Formula Atlantic and Super Vee style cars, these filters fit into the air scoops and allow plenty of fresh clean air to enter the engine, but keep racetrack debris from demolishing the engine. A hole at the small end of the filter allows debris to exit the air scoop. Designed for the vehicles listed below, but can probably be adapted to a wide variety of applications.

Xstream® Air Flow Tops

K&N® Xstream® air flow tops are innovative round filters designed to replace a metal air filter top. These filter lids add more filter area and are designed to increase horsepower and dirt capacity. Xstream® top adds approximately 1" to total height of assembly.

Assemblies come with black ring top. Blue, red, and polished tops sold separately.

Other colors available in 14" size only.

Filter Styles: DDO= down draft oval; DDR= down draft round; SDO= side draft oval; SDR= side draft round; REC= rectangle.

Notes: 1) 1 15/16" x 19/16" rectangle opening in baseplate; 2) includes cast aluminum velocity stack; 3) 1/2" vent elbow included; 6) 1 3/4" opening in baseplate; 10) 2 bolt mount; 11) 3 bolt mount; 12) will not work with velocity stacks; 13) 2 5/8" flange, will not fit VW engine with large fan shrouds; 14) special offset base allows use of larger fan shrouds on VW engines; 15) mounting bolt kit included; 16) E-2410 fits original Kadron filter case; 17) includes optional vent; 20) filter is turned 90 degrees to centerlines of carburetor bore; 21) filter is mounted centered to carburetor bores.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

RACING, HOT ROD, & CUSTOM PRODUCTS

Flow Control Air Filter Kits

The flow control air filter kit utilizes a custom designed base in combination with a unique lid, featuring a tongue or protrusion, that is designed to reduce intake turbulence. The resulting smooth, laminar flow, enhances cylinder filling, horsepower, and torque. The filter element is the world famous K&N® high-flow air filter for the ultimate in airflow and filtration. This powerful combination is designed to increase horsepower.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft. Unless specifically noted, these will not fit "HP" series carb.

Flow Control: 4-Barrel Holley® Dominator

Designed for all Holley® HP Dominator carburetors. This flow control air filter kit takes full advantage of the 360° air delivery system by using K&N's 4 1/2" air filter. This air filter kit is designed to produce a whopping 1200 cfm at 1 1/2 inches of water pressure drop which should be more than enough air for any motorsports application!

DESCRIPTION	SIZE	PART#
Fits Holley Dominator and HP Series Carbs	14" x 4.5"	61-6000

Flow Control for Holley® Dominator	All	Black	66-3220

61-6000

Flow Control: 4-Barrel Holley®

With and Without Choke Tower

The inspiration for this particular air cleaner was the 390 cfm Holley®. Many tracks and racing organizations use this carburetor as a restrictor. Flows plenty on the 390 and you can pass it all the way up to the mighty 850 and it keeps on making horsepower. Available in two sizes. Comes complete with all necessary parts.

WITH CHOKE TOWER: For unmodified choke towers.

DESCRIPTION	14" x 4.0"	14" x 4.5"
With choke tower, Fits 390-800	61-4020	61-4030
With choke tower, Fits 830-850	61-4040	61-4050

WITHOUT CHOKE TOWER:

DESCRIPTION	14" x 4.0"	14" x 4.5"
Without choke tower	61-4000	61-4010

Flow Control: 4-Barrel Holley® Low Profile Without Choke Tower

This air cleaner is designed for installations with the carburetor mounted high against the hood. An engine requiring 700 cfm or more to develop a certain level of power will not work with hood clearance that will only allow 450 cfm. There are race cars with less than 1/2" between the hood and the vent tubes of the carb. This model of flow control is as low as is recommended to assure maximum airflow. It was necessary to enlarge the diameter to 16" to maintain airflow. Fits 390-850 Holley.

DESCRIPTION	16" x 3.5"	16" x 4.0"
Low Profile Without Choke Tower	61-4500	61-4520

Note: This model only works without the choke tower and works great with restrictor plate engines. If you're working with these engines, call K&N's customer service and get all the info. Available in two sizes. Comes with all necessary parts.

Flow Control:

2-Barrel Rochester

DESCRIPTION	SIZE	PART#
Flow Control Air Filter Kit	14" x 4.5"	61-2040

The choice of quite a few racing associations, this carburetor is used in an attempt to equalize competition. If you have to use this carburetor, you should use this air cleaner. Clears the HEI distributor on the cast iron manifold. Only one size offered because only one size works.

Flow Control: 2-Barrel Holley®

With and Without Choke Tower

Fits the very popular 4412 Holley® 2-barrel by removing the choke assembly and leaving the choke tower untouched. The result is an increase in airflow. Two sizes available.

WITH CHOKE TOWER: For unmodified choke towers.

DESCRIPTION	14" x 4.0"	14" x 4.5"
With choke tower	61-2000	61-2010

WITHOUT CHOKE TOWER:

DESCRIPTION	14" x 4.0"	14" x 4.5"
Without choke tower	61-2020	61-2030

9-Inch Velocity Stack Air Filter Kits - Stainless Steel

Open 360° free breathing 9" air filter element on top of a 5" high stainless steel velocity stack base. Draws in cooler air away from engine heat. Engines equipped with the K&N® tall velocity stack air filter can produce more horsepower than those with no filter at all. All stainless steel tops and bases, highly polished to a mirror finish. Available with 5 1/8" flange to fit Holley®, Carter, or Rochester carburetors. Also available with 7 5/16" flange to fit Holley® Dominator carburetors. Choice of two element heights assures proper airflow for virtually any engine. Note: These K&N® assemblies are not U.S. Coast Guard approved for use as a flame arrestor.

NECK FLANGE	ELEMENT HEIGHT	ELEMENT	COMPLETE ASSEMBLY	TOTAL HEIGHT**

7 5/16"	5"	E-3650	58-1210	10.50"

14-Inch Triangle Air Filter Kit - Chrome

K&N's custom chrome triangle filter kit is designed to make any engine compartment come to life. This triangle filter kit comes with a 3" high K&N® air filter, has smooth radius corners and fits most carburetors with 5 1/8" flange.

NECK FLANGE	ELEMENT HEIGHT	ELEMENT	COMPLETE ASSEMBLY	TOTAL HEIGHT**
5 1/8"	3"	E-3737	60-1470	3.62"

Notes: ** Total Height = minimum clearance required above carburetor flange. 1) Includes vent kit; 2) Vent kit available, Part# 85-1190; 3) 1/2 vent tube on base; 4) 3/4" vent tube on base; 5) Top is chrome and base is Hi-Temp nylon; 6) Stainless steel top and chrome base; 7) 16" diameter.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft. Will not fit "HP" series carb.

Custom Lids

Xstream® Chevy & GMC Replacement Lids

Improve airflow and appearance on your late model Chevrolet-GMC truck and 1968 to 1995 GM vehicles with one of our new Xstream® air cleaner lids. Each lid comes in deep luster chrome with our Xstream® air flow top built in! These direct replacement lids are an inexpensive way to dress up your engine compartment and increase your airflow. **Part# 66-1201, 66-1202 (Black)**

66-1201

85-6840

Carbon Fiber Lid

Combines all the necessary features for racing with the good looks only carbon fiber can provide. Easy to install. This top lid fits K&N® air filter part numbers E-3740, E-1650, E-3743, E-3745, E-3730, E-3750, E-3732, E-3760, E-3770 or any round air filter with a 14" outside diameter. At 4.6 oz, this lid weighs 1/4 as much as our standard chrome top plate. Center rises 1". **Part# 85-6840**

Chrome Lid

This chrome plated steel top lid is stamped with the K&N® logo and is easy to install. It fits K&N® air filter part numbers E-3740, E-1650, E-3743, E-3745, E-3730, E-3750, E-3732, E-3760, E-3770 or any round air filter with a 14" outside diameter. Center rises 1". **Part# 85-6842**

85-6842

Chevy/GMC Chrome Tops

Improve the overall appearance of the engine compartment on your late model Chevrolet-GMC truck and 1968 to 1992 GM vehicles with one of our chrome air cleaner lids. Each lid comes in a deep luster chrome embossed with the K&N® logo. These direct replacement lids are an inexpensive way to dress up your engine compartment without disturbing emission control equipment. Available separately or packaged with an E-1500 filter element to make a complete kit.

CE-1501

Air cleaner base and snorkel not included.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

Off-Road Filters

These off-road filters are designed to provide an outstanding combination of filtration and performance. Designed to achieve high, virtually unrestricted airflow while maintaining filtration levels critical to your engine.

DESCRIPTION	PART#
Covered Round Assembly with 3" outlet. Aluminum cover allows extra protection for filter element. Filter size 9" Dia. by 3" tall.	55-1120
Replacement Element	E-3600

Go to page 481 for air filter cleaning accessories

DESCRIPTION	PART#
Fits inside the UMP Off-Road Air Box with 3" outlet	55-1000
Fits inside the UMP Off-Road Air Box with 4" outlet	55-1001
Both include sealing grease and Drycharger®.	

Custom Plenum

Cast aluminum plenum, finished with black powder coating and natural highlights. Designed to fit most 4 barrel carbs with a 5 1/8" flange. The plenum has a single snorkel outlet that can be fitted with a 4" I.D. hose running to a remote air filter. Or a K&N® universal filter with a 4" flange can be clamped directly on the snorkel. The outside diameter of the plenum is 9" and the snorkel sticks out 6" from the center of the plenum. Minimum clearance required above the carburetor flange is 3 1/8". Customer must provide 1/4"-20 hold down stud. **Part# 85-1060**

Note: The custom plenum is recommended for small displacement engines (less than 200 C.I.) or low revving V6-V8 engines. If the engine requires more than 45 sq. in. of filter area then the plenum should not be used because the carburetor would have to be re-jetted, resulting in a loss of high R.P.M. power.

Mini Plenum

Cast aluminum plenum designed to fit Weber DGV carburetors. Single or dual snorkel accepts 2 1/2" I.D. hose or 2 1/2" flanged K&N® universal air filter. Plenum diameter is 5 3/4" and the snout sticks out 4" from the center. 2 1/2" clearance needed above carburetor flange. Includes adaptor part# 85-1061.

85-8927

DESCRIPTION	PART#
Single Snout for Weber DGV series	85-8921
Dual Snout for Weber DGV series	85-8927

Air Cleaner Adapter for Weber DGV

Allows K&N® custom round air cleaners, with 5 1/8" flange, to be adapted to the Weber DGV carburetor.

See the custom assemblies section for filters and base plates that will fit and for the various sizes and styles of air cleaners available. The DGV adapter comes complete with gaskets and mounting hardware - except customer must provide 1/4"-20 center stud. **Part# 85-1061**

Filter Minder®

The Filter Minder® monitors air filter restriction and indicates when an air filter should be serviced. As the air filter gets dirty, the yellow position indicator moves in the clear window of the Filter Minder® and locks at the highest point. It can even be read after the engine is turned off. The air filter should not be cleaned until the position indicator reaches the red zone. Reset the indicator to zero by pushing the yellow reset at the end of the Filter Minder®.

IMPORTANT NOTES:

Initial filter restriction may not occur until 50,000 miles or more depending on operating conditions. Diesel and off-road use requires more frequent cleanings. K&N® air filters become more efficient at stopping dirt as they build a dust film. The air filter should not be cleaned until the indicator reaches the red zone. Sometimes the position indicator can move in the window with a new air filter. This could be from high airflow engine requirements, high humidity, or rain. Do not be alarmed. The air filter should not be cleaned until the indicator reaches the red zone.

85-2445

85-2444

DESCRIPTION	PART#
1/8" pipe threaded Filter Minder®	85-2444
Grommet Mount Filter Minder®	85-2445

Filter Minder® is a registered trademark of Engineered Products Company.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

Fuel Injection Line Air Filters

A unique way to protect your high performance engine from contaminants entering through aeration holes in the fuel injection nozzles. K&N® offers filters that slip onto the injector nozzle and protect the aeration hole from dust and debris. Sold individually, these filters have a 1 1/4" OD and 1 1/16" HT and fit securely over 1/4" to 1/2" fuel injection nozzles. **Part# E-3003**

Replacement O-Ring Kits

- For use with K&N® reusable billet oil filters

DESCRIPTION	PART#
Small	SS-001
Medium	SS-002
Large	SS-003

In-Line Gas/Oil Filters

K&N® inline fuel/oil filters can be used with a variety of oils and fuels including methanol. The filter material is made from stainless steel and the housing is anodized aluminum. These inline filters can be used in all forms of racing including, NASCAR®, drag racing, sprint car, and marine applications.

In-Line Gas/Oil Filter

Air/Fuel Ratio Monitors

- A precision instrument designed to help calibrate optimum air/fuel mixtures
- Displays in clear LED lighting for added visibility
- Aids performance enthusiasts in curing jetting issues
- Allows tuning for maximum performance or optimum fuel economy
- Installation requires minor welding
- Ideal for carbureted, injected, supercharged or turbocharged engines, using unleaded gasoline, alcohol, propane or nitrous oxide
- NOT for use with nitromethane, diesel, or leaded fuels

Other products that will contaminate or clog the sensor are:

- Gas/oil mixture
- Injector or carburetor cleaners containing lead additives
- Octane boosters containing lead
- Other "secret potions"

RACING, HOT ROD, & CUSTOM PRODUCTS

K&N® Stubstacks®

K&N® Stubstacks® are designed to reduce turbulence, improve metering accuracy, and increase the airflow by reducing restriction.

Stubstack® for Holley® 2300

Fits most Holley® 2300 Series carburetors. The Stubstack® is designed to fit 2-barrel popular models within this series. Holley carburetor list numbers are stamped on the choke horn.

Part# 85-0210

MODEL	LIST NO./CFM	LIST NO./CFM	LIST NO./CFM
2300	0-7448/350	0-4412/500	0-6425/650

Stubstack® for Holley® Square Bore with Milled Choke Horn

This Stubstack® is designed to be used with Holley® 390-850cfm square bore carbs (4150/4160), that have had the choke horn milled off and still use an air cleaner. Eliminates the need for hand polishing and radius work. Will work with all K&N® custom chrome racing air cleaners, including tall velocity stack air cleaners. **Part# 85-0400**

Stubstack® for Holley® Square Bore with Milled Choke Horn

This Stubstack® is designed to be used on Holley® 390-850cfm square bore carbs (4150/4160), that have had the choke horn milled off, but do not use an air cleaner. The full radius design helps to increase the airflow for drag racing. Will also hold down the base plate of a cold air scoop. Will not work with K&N® custom chrome racing air cleaners. **Part# 85-0500**

Stubstack® for Holley® Dominator

This Stubstack® is designed to be used on Holley® 1050 & 1150 cfm Dominator carbs. Will not allow use of a standard air cleaner housing, but it will hold down the base plate of a cold air scoop. Designed to straighten airflow and helps even out the flow to all four venturies. Decreases the restriction around the throttle bores. **Part# 85-0600**

Stubstack® for Holley® 4150/4160

Fits most Holley® 4150 and some 4160 Series carburetors with high and low choke horns. The 85-0200 is designed to fit 4-barrel popular models in this series. Holley carburetor list numbers are stamped on the choke horn. See the below chart for carburetor list numbers. **Part# 85-0200**

Notes: *Indicates dual feed fuel bowls. **Indicates dual accel. pump & dual feed bowls.

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

AIR FILTER APPLICATION: The Stubstack® is designed to only work effectively with K&N® air filter elements and 360° custom air cleaner assemblies. If the Stubstack is installed in an improper housing, the performance may actually drop! The minimum height above the stack needs to be at least 2 1/2" for proper operation. Will not fit "HP" series carb. Check the K&N custom assemblies that will work properly.

Stubstack® for Edelbrock Square-Bore Carburetors

Fits most Edelbrock Square-Bore carburetors. The Stubstack® is designed to fit almost every model within this series. This Stubstack straightens and speeds up airflow, reduces turbulence, improves metering accuracy and increases airflow by reducing restriction. Available for the Edelbrock part numbers. Will also fit some Carter AFB models. **Part# 85-0700**

MODEL#	CFM RATING	CHOKE TYPE	MODEL#	CFM RATING	CHOKE TYPE
1400	600 cfm	electric choke	1406	600 cfm	electric choke
1404	500 cfm	manual choke	1407	750 cfm	manual choke
1405	600 cfm	manual choke	1411	750 cfm	electric choke

Stubstack® for Demon 4150-Style Carburetors

This Stubstack® is designed to be used on Holley® 4150-style Race Demon Carburetors from 650 to 1000 CFM. Will also fit King Demon Carburetors from 1000 to 1190 CFM. This Stubstack straightens and speeds up airflow, reduces turbulence, improves metering accuracy and increases airflow by reducing restriction. **Part# 85-0800A**

K&N® Custom Chrome Assemblies Compatible with Stubstack® 85-0200, 85-0210 and 85-0700 Only!

Air Filter Adapters

- CAD Designed
- Made of High Quality Materials Such as Aluminum, Silicone or Reinforced Nylon
- One Year Limited Warranty

K&N® air filter adapters are perfect for the person looking to build their own intake system. Each component is designed with the latest CAD software to ensure exact tolerances and a perfect fit. Each adapter is configured to work in conjunction with K&N® high-flow air filters to ensure smooth non-turbulent air flow.

*85-9988 gaskets are made of reinforced neoprene rubber. All other gaskets listed are AN890 Armstrong paper gasket material.

Carburetor Covers

K&N® carburetor covers for 5 1/8" standard and 7 5/16" dominator carburetors.

DESCRIPTION	BLACK	RED	ORANGE
5 1/8"	85-8913CK	85-8913CR	85-8913CO
7 5/16"	85-8932CK	85-8932CR	85-8932CO

Carburetor Adapter Flanges

Quick convenient way to adapt K&N® universal filter to carburetor with flat flange.

CARBURETOR FLANGE SIZE	BOLT CIRCLE	ADAPTER O.D.	ADAPTER WIDTH	ADAPTER PART#
1 1/8" bore, 2-bolt	1 3/8"	2 3/4"	7/8"	85-1070
1" bore, 2-bolt	45mm	2 7/16"	5/8"	85-1090
1" bore, 2-bolt	40mm	2"	5/8"	85-1180

Marine Style Vent Hose Adapters

These vents mount in between the top and bottom plates of custom chrome air filter assemblies. Vent tube accommodates breather hose without drilling filter base.

HOSE SIZE	2 3/4" FILTER HT	4" FILTER HT	6" FILTER HT
1/4"	85-1325	85-1425	85-1625
3/8"	85-1337	85-1437	85-1637
1/2"	85-1350	85-1450	85-1650
5/8"	85-1362	85-1462	85-1662
3/4"	85-1375	85-1475	85-1675

Fuel Line "T" Fitting

Maximum flow, durable, light weight, easy to use. One size fits 1/4" to 3/8" I.D. hose.

DESCRIPTION	PART#
Packed 12 per card	81-0270
Packed 1 per card	81-0271

Air Filter Hardware Kits

All kits are packaged on attractive display card.

DESCRIPTION	PART#
5mm x 12mm Hex head bolts, 5mm wafer washers (6 each)	85-7855
6mm x 12mm Hex head bolts, 6mm locknuts, 6mm wafer washers (4 each)	85-7863
1/4-20 Clip nuts, 1/4-20 x 3/4" Phillips head (2 each)	85-8362
Washers: Stalen, 6mm wave, 5mm wave (6 each)	85-8221
O-ring for Weber IDA (2 each)	85-7728
O-ring for Weber DCOE (2 each)	85-7752
10-24 Acorn nuts, 10-24 wave washers (6 each)	85-7493
5mm x 10mm Socket head bolts, 5mm wave washers (4 each)	85-7848

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

FILTER WRAPS

PRECHARGER®

The K&N® Precharger® is a specially designed filter wrap made to extend the service interval of your K&N® air filter when used in very dusty conditions. They are made from durable polyester material containing uniform micron openings. The Precharger will stop small dirt particles; yet add little restriction to the airflow of the filter. The Precharger is designed to be run dry and can be cleaned with K&N filter cleaner. The Precharger is custom made to fit each application. Double stitched elastic openings assure that the Precharger will stay in place. The Prechargers are available in a variety of colors.

DRYCHARGER®

K&N® Drychargers® are manufactured from a durable polyester material and are pre-treated with a proprietary hydrophobic process designed to prevent splashes of water or mud from saturating your K&N® air filter. The Drycharger will also stop small dirt particles; yet add little restriction to the airflow of the filter. Please be aware the Drycharger is water repellent, not water proof. Depending on conditions and usage the water repellent treatment is good for 1 to 2 years.

Developed for only the dustiest of conditions, the K&N® pre-cleaner is a specially designed foam filter wrap made to extend the service interval of your K&N® air filter. Made from large, open cell foam, the pre-cleaner will trap dust and dirt, yet add only a small amount of restriction to the airflow of your filter.

- Custom made to fit specific applications
- Also sold in universal cut-to-fit sizes
- Red pre-cleaners are designed to be used with foam filter oil (purchased locally), pre-cleaners must be cleaned with K&N® cleaner or soap and water

RM-3001

RM-3501

SPECIAL FILTERS WITH METAL BASE AND FLANGES, TO ALLOW MOUNTING THE FILTER WITH A HOSE, IDEAL FOR HIGH TEMPERATURE APPLICATIONS SUCH AS TURBOCHARGERS.

3" Outside diameter round mounting flange, 7" filter diameter, 7" chrome top w/1" hole, 6" filter height, 1 5/8" flange length **RM-3001**
 3 1/2" Outside diameter round mounting flange, 4 1/2" x 7" oval base, 4 1/2" x 7" stainless steel top, 3 1/2" filter height, 5/8" flange length **RM-3501**

RE-0280

RE-0220

RE-0380

SPECIAL FILTERS WITH THREADS IN THE TOP-PLATE TO AID IN MOUNTING, OR TO AFFIX COVERS/SHIELDS.

1 1/4" round mounting flange, 3 1/2" filter diameter, rubber top, 1/4-20 threads, 3 1/2" filter height, 5/8" flange length **RE-0220**
 1 3/4" round mounting flange, 3 1/2" filter diameter, rubber top, 1/4-20 threads, 3 1/2" filter height, 5/8" flange length **RE-0260**
 2" round mounting flange, 3" base diameter, 3 1/2" rubber top, 1/4-20 threads, 3 1/2" filter height, 5/8" flange length **RE-0280**
 2 1/2" round mounting flange, 5" base diameter, 5 1/2" metal top, 1/4-20 threads, 2 3/4" filter height, 5/8" flange length **RE-0380**

RU-2952

SPECIAL FILTERS WITH DUAL OVAL MOUNTING FLANGES, SOLD IN TWO-PACKS ONLY.

2 3/16" x 2 7/8" flanges, 5" x 6" rectangle base, 3 1/4" x 4 1/4" rubber oval top, 4" filter height, 11/16" flange length, 3/8 c-c spacing **RU-2952**

RU-3460

RF-1011

RU-3450

OTHER

1 1/2" x 2 1/4" Oval mounting offset flange, 3 3/4" x 3 7/16" rect. base, 3 3/8" x 2 3/4" rectangle top, 2 1/4" filter height, 3/4" flange length **RU-3450**
 1 15/16" Outside dia. round mounting offset flange, 3 7/8" x 3 7/16" rect. base, 3 3/8" x 2 3/4" rectangle top, 2 1/4" filter height, 1/2" flange length **RU-3460**
 1 1/4" Inside diameter round centered flange, 3 7/8" x 3 7/16" rectangle base, tapered, 2 1/4" filter height, 1/2" flange length **RU-3410**
 3 3/16" Outside diameter flange, 4 1/2" x 6 1/4" base, chrome top, 11 3/8" filter height, 3/4" flange length **RF-1011**

Legal in California only for racing vehicles which may never be used, registered or licensed for use upon a highway. See knfilters.com for CARB status on each part for a specific vehicle. These filters are not applicable, nor intended for use on aircraft.

Round Straight

When selecting one of K&N's universal round straight air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(D) Filter Diameter - This is the overall diameter of the filter. Always use the largest diameter practical for maximum filtration.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA/FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

(F) Mounting Flange Inside Diameter		(D) Filter Diameter		(L) Filter Length		(FL) Flange Length		(FA) Flange Style		(FO) Flange Offset		Rubber End Cap Part #	Chrome End Cap Part #	Custom End Cap Part #	Filter Wraps Part #

Round Tapered

When selecting one of K&N's universal round tapered air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(D) Filter Diameter - This is the outside diameter of the filter. Always use the largest diameter practical for maximum filtration.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA/FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

Oval Straight

When selecting one of K&N's universal oval air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(MA / SA) Filter Oval Dimensions - This is the length and width of the filter. Always use the largest filter practical to fit the application.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA / FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

Dual Flange Oval

When selecting one of K&N's universal dual flange air filters, you should consider the following dimensions as they relate to the specification chart:

(F) Mounting Flange Inside Diameter - This is the most critical dimension and should be very close to the diameter of the application's inlet flange. The flange will stretch up to 1/16" for those in-between sizes.

(MA / SA) Filter Oval Dimensions - This is the length and width of the filter. Always use the largest filter practical to fit the application.

(L) Filter Length - This dimension is the length of the filter body only, it does not include the flange length. Always use the longest filter practical for maximum filtration.

(FA / FL) Flange Angle and/or Length - If no angle is listed in the specifications table, then the flange is straight. Any angle listed is in degrees and can be utilized when space is a problem.

(FO) Flange Offset - In some cases the center of the flange is offset from the center of the filter base in order to provide a better fit.

(C-C) Flange Center to Center - For dual flange filters, this is the flange spacing. This dimension should be within 2mm for proper fit on the application.

WARRANTIES AND GUARANTEES

K&N® Million Mile Limited Warranty®

K&N® O/E replacement air filters and air intake systems purchased from authorized dealers are backed by the K&N Million Mile Limited Warranty® when used primarily on paved roads and on vehicles for which they were designed. If one of these products ever fails to provide complete satisfaction, K&N will replace it.

WHAT IS NOT COVERED BY OUR WARRANTY

Any K&N® product used for 1: any type of racing or competition; 2: any off-road use, custom or modified applications; 3: any off-road or dual sport motorcycle/ATV use; or 4: any illegal highway use, marine, or industrial applications. All K&N air filters not covered by our million mile warranty are warranted against defective materials or workmanship for one year from date of purchase with no mileage limitation. This includes K&N air filters sold for ATVs and off-highway or dual-purpose motorcycles.

INCORRECT CLEANING OR USE VOIDS WARRANTY

K&N® air filters should be cleaned every 50,000 miles for normal highway use, more often in dusty conditions. Cleaning should be done with K&N cleaner and air filter oil (or comparable air filter cleaner and oil). Use of compressed air, or chemicals not specifically designed to clean and re-oil cotton air filters (i.e. gasoline, transmission fluid, motor oil, lightweight oil, or diesel fuel) will void the warranty. Any damaged, abused or modified K&N air filters will not be warranted.

REPLACEMENT

Any K&N® product returned to K&N will need a return goods authorization number and must be sent at customers' expense along with proof of purchase. Call 1-800-858-3333 or contact K&N by email or mail.

PRODUCT REGISTRATION

Register your warranty at our website and you'll be eligible for special promotions and product upgrade opportunities.

EXTENT OF WARRANTY

Any defective K&N® air filter properly returned to K&N will be replaced. K&N reserves the right to determine whether the terms of the warranty, set out above, have been properly complied with. In the event that the terms are not complied with, K&N shall be under no obligation to honor this warranty. K&N will not be responsible for any indirect, consequential, special, contingent, or other damages.

Commercial Grade Diesel Air Filter Warranty

K&N® commercial grade air filters have a 3-year or 300,000-mile limited warranty. They are meant to be washed and reused multiple times before needing to be replaced.

K&N® Oil Filter Warranty

K&N® oil filters are warranted to be free from defects in material and workmanship. Any filter proven defective during the engine or equipment manufacturer's recommended service intervals will be replaced at no charge.

In the event of an engine or equipment failure directly caused by a defective K&N oil filter, which was properly installed and changed following the engine or equipment manufacturer's recommended service intervals, K&N Engineering, Inc. will repair the damaged engine or equipment. If a full synthetic or other premium lubricant is used, K&N will extend this coverage to the interval specified by the lubricant supplier.

Claims for engine or equipment repairs provided under this warranty must be submitted within 30 days after discovery of damage. K&N Engineering, Inc. reserves the right to examine the engine or equipment and filter to determine the amount of damage and whether it was caused by a defective K&N oil filter.

This warranty gives you specific legal rights. You may have other rights which vary from state to state.

Engine and equipment manufacturer's warranties remain in effect when K&N oil filters are used.

Emissions Standards and Smog Test Requirements

K&N® offers more 50-state street legal automotive intake systems than any other company. Check the status of the part number for your vehicle in this catalog or on our website and check whether it has a CARB E.O. CARB stands for California Air Resources Board.

In order for an intake system to be legal in California and states with emission standards, the part must receive an exemption in the form of an E.O. number from CARB which is only valid for a specific vehicle and the E.O. must be in or attached to the vehicle. That means a part number can be CARB exempt for some vehicle applications and not others. There is no such thing as "CARB pending". A particular part number on a particular vehicle is either exempt or not. An intake system that does not have a CARB E.O. is not legal for highway use in California and a few other states and will not pass a state regulated emissions test solely due to the absence of an E.O. number. If you still have questions about the legality of a K&N part number on your vehicle, please visit our website or contact customer service at 1-800-858-3333. You can also determine whether CARB exemption is required for a part on your vehicle to be legal in your state by checking with your local or state motor vehicle or emissions agency.

WARRANTIES AND GUARANTEES

Consumer Protection Pledge

We want to make sure that when you buy a K&N® lifetime air filter or air intake system, you can be confident your vehicle's warranty will not be impacted. We also want you to feel confident that even if you experience difficulties with a dealership repair department, we will step-in and resolve the issue, so you won't have to. Therefore, we make the following pledge:

K&N® pledges to our customers that they will not be taken advantage of and charged for a repair due to a manufacturer warranty denial blamed on the presence of a K&N product.

A member of K&N's fully staffed customer service department

Horsepower Guarantee

K&N® Air Intake Systems are Guaranteed to Increase Power!*

Every K&N® air intake system we design has been tested on a chassis dynamometer to establish that it will provide an increase in horsepower to the drive wheels of the vehicle.** We publish estimated horsepower increases to allow consumers an opportunity to view a real test result for a specific or similar vehicle even though the actual results a consumer will receive will vary depending on such things as the condition of the vehicle, weather, fuel, and other circumstances.

Our horsepower guarantee is simple and straightforward. If you are the original retail purchaser of a K&N intake system, we offer an unconditional 30 day money back guarantee. If you are unhappy with a K&N intake system for any reason,

**GUARANTEED TO
INCREASE HORSEPOWER**

including the horsepower improvement experienced, we will refund 100% of the purchase price and even pay for return shipping to K&N.

If you are not completely satisfied and wish to return your intake, simply call our customer support team in Riverside, California at 800-858-3333 within 30 days of the original purchase. Provide your name, address, contact information, and original purchase price. We will issue a return authorization number to you. We can also send you a shipping label to get the intake returned at no cost to you. Then use the shipping label to return the complete air intake system (including all parts and components) in an undamaged condition (exclusive of ordinary wear and tear and markings from installation) in the original packaging, together with the original proof of purchase, clearly showing the date of purchase and amount paid. Make sure that the shipping label clearly indicates the return authorization number. A check for the refund will be sent, within 30 days of receipt, to the name and address provided.

This guarantee does not apply to any other costs incurred by the original purchaser, including, but not limited to, dynamometer testing, parts and labor for the installation or removal of the air intake system, loss of use, or other incidental costs.

Engine Protection Limited Warranty

Unlike many companies, our warranty for O/E replacement air filters and intake systems does extend beyond the replacement of a defective K&N part. For the original purchaser of the product, our warranty covers any engine damage or related costs incurred as a direct result of the use of a properly installed and maintained K&N O/E replacement air filter or intake system on the specific vehicle for which the product was designed to be used by K&N. This includes reasonable vehicle repair costs, sensor replacements, car rental fees or other incidental expenses directly related to an engine problem caused by the failure of a K&N product. Furthermore, we warrant that using our product will not result in a vehicle warranty denial. K&N will not be responsible for any indirect, consequential, special, contingent, or other damages not listed above.

We will promptly reimburse the consumer for the cost of the repair if a service provider denies warranty coverage as a result of a K&N product or claims that a K&N product has caused harm to your engine or vehicle. In order to receive reimbursement, we require each of the following:

1. The consumer must provide a written statement or repair order from the dealership or service provider in which the dealership or service provider blames the problem or warranty denial on a K&N product;
2. The service provider or consumer must provide K&N with all allegedly damaged parts. Many states have laws that require a service provider to retain all parts replaced during a vehicle repair, unless given consent to dispose of the parts by the consumer. K&N will pay the shipping cost to recover these parts; and
3. The consumer must provide proof of purchase of the K&N product along with cooperation in helping us investigate the claim.

Once these steps have been completed, K&N will contact the service provider and collect evidence to support their claim. In the event we are not provided with sufficient evidence, we reserve the right to reject the claim and will use our best efforts to assist in establishing your rights toward the service provider under warranty or other provisions.

We strive to exceed consumer expectations. Customer service can be reached at 1-800-858-3333.

* Applicable only for air intake systems purchased and installed in the U.S.A.

** Please note that the horsepower rating that a motor vehicle manufacturer advertises is usually measured at the crankshaft of the engine using an engine dynamometer. There is generally a parasitic loss of horsepower between the crankshaft and drive wheels, which is caused by the drivetrain of the vehicle. This means we will often show absolute horsepower numbers that are lower than the vehicle manufacturer since we are measuring the horsepower that reaches the road.

Testing Facilities and Methods

K&N® maintains testing facilities in the USA, the UK and the Netherlands. These facilities incorporate both airflow and horsepower/torque testing capabilities. Our horsepower/torque testing is performed on wheel-based dynamometers, which measure SAE corrected brake horsepower and torque at the wheel(s) receiving power from the drive train. This is different and we believe more realistic than horsepower/torque testing done at the flywheel of an engine because the power lost between the engine and the wheels does not contribute to the power needed to put a vehicle in motion. Our standard SAE corrected horsepower/torque testing is designed to measure relative power differences on a vehicle with and without K&N products installed. We attempt to hold all other variables constant to generate a reliable measurement of changes in SAE corrected horsepower and torque on a vehicle before and after a K&N product is installed.

Airflow testing is a little more complicated, so we have included a detailed description of our airflow testing on our website. See knfilters.com for more information.

To test the dust filtration efficiency for a particular air filter, we contract with an independent lab to conduct such tests in accordance with the ISO 5011 testing procedure.

K&N® Estimated Horsepower Gains

K&N® provides estimated SAE corrected horsepower gains that are based on actual dynamometer testing for a specific or similar vehicle. The actual horsepower increase a consumer will receive will vary depending on such things as vehicle condition, fuel, weather and other circumstances. It would be impractical to test every possible vehicle configuration or year in which a particular engine may be used; therefore, many of our estimates are based upon similar engine/vehicle/year dynamometer testing that we believe to be representational for the vehicle listed.

K&N® Dynamometer Test Results

K&N® utilizes an inertial dynamometer (dyno) to determine the estimated SAE corrected horsepower of our intake kits and OE replacement air filters. This type of dyno does not actually measure horsepower, but rather measures acceleration. This measured acceleration is then multiplied by the mass of the drum (a constant mass) to obtain the force being applied to the drum, or in other words, the interface between the vehicle's tires and the dyno drum. Now that the force at this point is known, determining the torque is straightforward. The torque is calculated by multiplying the calculated force by the radius (again a constant) of the dyno's drum.

Now, torque is very simply and mathematically related to horsepower by the following equation:

$$\text{Horsepower} = \text{Torque} \times \text{RPM} / 5,252$$

From this equation, the SAE corrected horsepower can be determined.

According to the above explanation, the only variable being measured by the dyno is the acceleration of the drum. There are no adjustments (calibration) to be made by K&N on either the two-wheel or four-wheel drive dyno. The mass of the drum(s) is determined at the factory before shipping the dynamometers to K&N and the mass of the drum(s) are imbedded into the software. K&N does not have the ability to modify or adjust these values.

Furthermore, there are several factors that can affect the SAE corrected horsepower values as measured by K&N or at any other dyno facility. Some of these factors are:

- Consistency of test parameters
- Tire pressure
- Fuel octane rating
- Vehicle condition
- The atmospheric conditions (dyno correction factors can vary from engine electronic correction factors)

K&N has noticed that SAE corrected horsepower values will vary from day-to-day, while testing the same vehicle, due to the manner in which the vehicle's on-board computer adjusts for varying climate conditions. In other words, if a vehicle is tested at sea level on a sunny and warm day, the dyno will apply a SAE correction factor to adjust the conditions to a standard temperature and pressure (STP) and the vehicle's on-board computer will also apply certain set of operating parameters. If that same vehicle is tested at a high altitude, on a rainy and cold day, the dyno will again adjust to STP while the vehicle may adjust to a different correction factor than it did on the sea level test. Furthermore, some vehicles have required almost a 100 miles be logged on the vehicle in order to allow the on-board computer to reset itself to obtain accurate power readings.

While K&N pays close attention to these many factors, and is patient while performing dyno tests, we are not in the position to scrutinize the many facilities that perform dynamometer testing for the general public. Furthermore, we certainly do not have enough information to make a judgment on the validity of these tests.

CLEANING INSTRUCTIONS

K&N® Air Filter Cleaning Instructions

Most K&N® air filters will normally require cleaning every 50,000 miles. Servicing your K&N® oiled cotton air filter is simple; just follow the four easy steps below.

Scan the QR code
to see a cleaning
instruction video

Step 1: Apply Cleaner

Liberally spray K&N® air filter cleaner or K&N Power Kleen™ onto both sides of filter and allow to soak for 10 minutes to loosen the dirt. Do not allow cleaner to dry on air filter.

Step 2: Rinse Filter

Rinse off air filter with cool low-pressure water from the clean side out in order to flush the dirt out of the filter. Continue to rinse the filter until all traces of cleaner are gone. It may be necessary to repeat steps 1 and 2.

Step 3: Dry Filter

After rinsing, gently shake off excess water and **allow filter to dry naturally**. Do not oil until the filter is dry.

Step 4: Oil Filter

Squeeze Oil (99-5050): Apply K&N® air filter oil evenly along the crown of each filter pleat. Allow oil to wick for approximately 20 minutes. Touch up any light areas on either side of the filter until there is a uniform red color on all areas.

Aerosol Oil (99-5000): Spray K&N® air filter oil evenly along the crown of each filter pleat holding nozzle about 3" away. Allow oil to wick for approximately 20 minutes. Touch up any light areas on either side of the filter until there is a uniform red color on all areas.

The above process is the only approved procedure for maintaining your K&N® oiled cotton air filter.

Visit knfilters.com for additional information on cleaning and re-oiling your filter and examples of a dirty filter needing to be serviced.

RECHARGER® Filter Care Service Kit

Aerosol

Designed to clean any K&N® air filter. It restores airflow efficiency so your air filter performs virtually like new! Includes 6 1/2 oz. spray oil and 12 oz. filter cleaner. **Part# 99-5000**

Squeeze Oil

Same as 99-5000 except has squeeze oil bottle instead of spray can. Includes 8 oz. squeeze oil and 12 oz. filter cleaner. **Part# 99-5050**

99-5000

99-5050

99-0621

Power Kleen™

K&N Power Kleen™ is a high-performance cleaner and degreaser used to remove road grime, engine exhaust and grease from cotton air filters. It is now formulated to clean those troublesome and demanding cleaning jobs. This cleaner is specially formulated to remove oil, lubricants, grease, grime, and other deposits from most surfaces including cotton air filters, painted surfaces, chrome, plastic and more!

K&N Power Kleen™ is the only brand of cleaner recommended to clean K&N® air filter elements. It works to dissolve dirt buildup and old filter oil and can be washed away with water. This cleaner and degreaser is environmentally friendly and safe on paint, chrome, cast aluminum, plastic, rubber and vinyl when used as directed. It is available in four convenient sizes and includes complete instructions on each bottle.

DESCRIPTION	PART#
12 fl. oz. Spray Bottle	99-0606
32 fl. oz. Spray Bottle	99-0621
1 gal. Bottle	99-0635
5 gal. Pail	99-0640

99-0606

Note: Do not use on polished or anodized aluminum.

Synthetic Air Filter Cleaner

K&N® synthetic air filter cleaner loosens and dissolves dirt and grime buildup on synthetic filters. This cleaner is perfect for K&N® Dryflow® air filters and other synthetic air filters. It comes in a 32 oz. spray bottle. **Part# 99-0624**

Heavy Duty Air Filter Cleaner

K&N® heavy duty air filter cleaner is used on K&N® heavy duty commercial grade air filters. It helps break down dirt and grime caught by the hybrid filter material so it can be rinsed out with a hose or pressure washer. It comes in a one-gallon bottle with a 38-inch hose and spray nozzle. **Part# 99-0638**

K&N® Air Filter Oil

K&N® air filter oil is the only oil specially formulated to work in combination with the cotton fabric in K&N® air filter elements providing outstanding air filtration. When used as directed, it quickly penetrates the filter pleats, where it remains suspended in the cotton fabric until the element is cleaned with K&N® air filter cleaner.

99-11312

99-0504

99-0533

DESCRIPTION	PART#
6 1/2 oz. Aerosol Can	99-0504
12 oz. Aerosol Can	99-0516
8 oz. Squeeze Bottle	99-0533
1/2 oz. Pillow Pack	99-11312
1 gal. Refill Bottle	99-0551
5 gal. Pail	99-0555

K&N® Sealing Grease

K&N® air filter sealing grease provides an air tight fit around sealing surfaces on all types of air filter elements. It resists heat and will not melt or run off.

99-0703-1

DESCRIPTION	PART#
1 oz. Squeeze Tube	99-0703-1
6 oz. Squeeze Tube	99-0704

Note: K&N® air filter sealing grease is not to be used on clamp-on filter elements.
